Program Office: Administration on Children, Youth and Families - Children's Bureau
Funding Opportunity Title: Child Welfare - Education System Collaborations to Increase Educational Stability
Announcement Type: Initial
Funding Opportunity Number: HHS-2012-ACF-ACYF-CO-0270
CFDA Number: 93.652
Due Date for Applications: 05/29/2012

Executive Summary:
The Administration for Children and Families (ACF), Administration on Children, Youth and Families (ACYF), Children's Bureau (CB) announces the availability of 24-month infrastructure building grants to support collaborative initiatives between State, local, or tribal child welfare agencies and education systems to improve educational stability and permanency outcomes for middle- to high-school aged children in the child welfare system. Educational services are crucial supports for many families adopting children from foster care, especially children who have special education needs or extensive mental health treatment needs. Through this funding opportunity communities can develop infrastructure to address barriers to permanency for youth, as well as implement multi-disciplinary interventions to improve the socio-emotional and behavioral well-being of youth in care. Applicants will propose viable partnerships between child welfare agencies, local education districts, and identified critical stakeholders, such as courts and health and mental health agencies, to ensure youth in care are afforded the ability to succeed and thrive in educational settings to facilitate permanency, including adoption, and other post-permanency supports. Multi-system partnerships and meaningful collaborations between child welfare and education and other youth-serving systems are essential to ensure youth in care are afforded the ability to succeed and thrive in educational settings to facilitate permanency, including adoption, and other post-permanency supports.

I. Funding Opportunity Description

Statutory Authority
Description

Purpose

The purpose of this Funding Opportunity Announcement (FOA) is to solicit proposals for projects that will build infrastructure capacity to ensure that youth in care are afforded the ability to succeed and thrive in educational settings to facilitate permanency, including adoption, and other post-permanency educational supports. These projects will:

- Foster strategic coordination and institutionalized communication among public child welfare and education agencies, community organizations, and targeted youths in care and their families;
- Support the development of policies, procedures, and/or practices to increase the identification, enrollment, and attendance of targeted youths in care into comprehensive, high-quality education services;
- Promote the awareness and utilization of multi-disciplinary interventions and quality practice that increase protective factors and decrease risk factors to improve outcomes for youths in foster care;
- Promote social and emotional well-being;
- Promote the development of policy and procedures across child welfare, education, and other supporting systems (courts, juvenile justice, and health) aimed at increasing protective factors and mitigating the effects of childhood trauma that impact permanency and educational outcomes;
- Collectively disseminate findings and support knowledge transfer from these projects to the field.

Projects may choose to develop new models or build on existing models to improve to increase the educational stability of middle- to high-school age children in the child welfare system since these older youth have been shown to be at risk for educational instability. The target population includes children who have been reported to child welfare, are in child welfare custody, reside in in-home care, reside in out-of-home care, are receiving post-adoption services, or any combination thereof. The projects funded under this announcement will have the potential to benefit children in the child welfare system outside the parameters of the target population. Projects are expected, however, to clearly demonstrate that the primary intent and all, or a significant portion of the funds, will be used to increase the educational stability of middle- to high-school-age youth in the child welfare system.

Infrastructure building activities may include:

- Foundation infrastructure (planning and collaboration);
- Implementation infrastructure (operations and workforce development); and
- Sustaining infrastructure (communications, support, and evaluation). (Del Grosso, et al., 2011; Hargreaves & Cole, In review)

Background Information

Ensuring the Well-Being of Vulnerable Children and Families

ACYF is committed to facilitating healing and recovery and promoting the social and emotional well-being of children who have experienced maltreatment, exposure to violence, and/or trauma. This FOA is designed to ensure that effective interventions are in place to build skills and capacities that contribute to the healthy, positive, and productive functioning of children and youth into adulthood.

Children who have experienced maltreatment, exposure to violence, and/or trauma are impacted along several domains, each of which must be addressed in order to foster social and emotional well-being and promote healthy, positive functioning:

- **Understanding Experiences**: A fundamental aspect of the human experience is the development of a world view through which one's experiences are understood. Whether that perspective is generally positive or negative impacts how experiences are interpreted and integrated. For example, one is more likely to approach a challenge as a surmountable, temporary obstacle if his or her frame includes a sense that "things will turn out alright." On the contrary, negative experiences can color...
how future experiences are understood. Ongoing experiences of abuse might lead children to believe they deserve to be maltreated and affect their ability to enter into and stay engaged in safe and healthy relationships. Interventions should seek to address how young people frame what has happened to them in the past and their beliefs about the future.

- **Developmental Tasks**: People grow physically and psychosocially along a fairly predictable course, encountering normal challenges and establishing competencies as they pass from one developmental stage to another. However, adverse events have a marked effect on the trajectory of normal social and emotional development, delaying the growth of certain capacities, and, in many cases, accelerating the maturation of others. Intervention strategies must be attuned to the developmental impact of negative experiences and address related strengths and deficits to ensure children and youth develop along a healthy trajectory.

- **Coping Strategies**: The methods that young people develop to manage challenges both large and small are learned in childhood, honed in adolescence, and practiced in adulthood. Those who have been presented with healthy stressors and opportunities to overcome them with appropriate encouragement and support are more likely to have an array of positive, productive coping strategies available to them as they go through life. For children who grow up in unsafe, unpredictable environments, the coping strategies that may have protected them in that context may not be appropriate for safer, more regulated situations. Interventions should help children and youth transform maladaptive coping methods into healthier, more productive strategies.

- **Protective Factors**: A wealth of research has demonstrated that the presence of certain contextual factors (e.g., supportive relatives, involvement in after-school activities) and characteristics (e.g., self-esteem, relationship skills) can moderate the impacts of past and future negative experiences. These protective factors are fundamental to resilience; building them is integral to successful intervention with children, youth, and families.

The skills and capacities in these areas support children and youth as challenges, risks, and opportunities arise. In particular, each domain impacts the capacity of young people to establish and maintain positive relationships with caring adults and supportive peers. The necessity of these relationships to social and emotional well-being and lifelong success in school, community, and at home cannot be overstated and should be integral to all interventions with vulnerable children and youth. Additionally, building these skills and capacities through the implementation of effective interventions will ready children, youth, and families for positive permanency outcomes.

An important component of promoting social and emotional well-being includes addressing the impact of trauma, which can have a profound effect on the overall functioning of children and youth. The Administration on Children, Youth and Families promotes a trauma-informed approach, which involves understanding and responding to the symptoms of chronic interpersonal trauma and traumatic stress across the domains outlined above, as well as the behavioral and mental health sequelae of trauma.

ACYF anticipates a continued focus on social and emotional well-being as a critical component of its overall mission to ensure the safety, permanency, and well-being of children. The work contemplated in this FOA is designed to not only support collaborations between State, local, and tribal child welfare agencies and education systems to improve educational stability and outcomes for middle- to high-school aged youth in the child welfare system, but also to improve overall well-being in these contexts so that safety and permanency can be achieved.

### Partnerships Between Child Welfare, Education, and Courts

Joint efforts between child welfare agencies and local education and court systems to ensure educational stability of children in foster care are underway in some States and localities. Some build on relationships established under the McKinney Vento Homeless Assistance Act of 1987 (Pub.L. 100-77), and other partnerships have been built under a shared vision of responsibility to vulnerable children who have been victims of abuse and neglect.
In recent years, Federal, State, and local efforts have been made to address barriers in communication and information sharing that impedes collaboration between agencies responsible for serving vulnerable youth. Partnerships between the child welfare, education, and court systems have been developed and sustained to improve cross-system data sharing. The child welfare and education systems have worked together to develop data-sharing agreements and implemented changes to statewide data systems to promote needed cross-system data sharing. Additionally, there is an emerging body of literature that focuses on policies and protocols to address barriers to collaboration, such as issues with confidentiality and data-sharing agreements.

The way the child welfare and education systems are structured may impede the collaboration and coordination at the local level to improve the educational outcomes for youth. For example, while there may be a State or administrative agency responsible for oversight of services or programs, the relationship at the local level may be the most important factor in ensuring coordination and collaboration. Even when the child welfare agency is locally managed, there may be a number of different school districts in the same area. This FOA is designed to bring these systems together to address and remedy barriers to collaboration and serving the whole child.

**Federal Efforts to Promote Multi-System Partnerships and Coordination in Child Welfare**

The Children's Bureau (CB) encourages interagency collaboration at the State or tribal level to support families who come to the attention of child welfare and other health and human services agencies. With the implementation of the Adoption and Safe Families Act (ASFA) and with renewed emphasis on achieving permanency for children in the child welfare system, finding effective and timely methods to address concurrent family problems and child maltreatment is critical.

The Fostering Connections to Success and Increasing Adoptions Act of 2008 (Pub.L. 110-351) created new provisions to address barriers to educational stability and improve educational outcomes among youths in foster care. These provisions promote critical changes and expectations around the way child welfare agencies and educational agencies coordinate services for youth in foster care. While these requirements are the responsibility of the title IV-E child welfare agency, these provisions provide an opportunity for child welfare agencies and education agencies to improve, enhance, and institutionalize cross-systems collaboration that supports educational stability. Specifically:

- **Enrollment of children in school**: To assure school enrollment, the title IV-E agency must provide assurances in the title IV-E plan that each child receiving a title IV-E payment who has attained the age for compulsory school attendance is a full-time elementary or secondary student in a school or an authorized independent study program, or is being home schooled consistent with the law of the State or other jurisdiction in which the school, program, or home is located. Alternatively, the title IV-E agency must provide assurances that such a child has completed secondary school or is incapable of attending school full-time due to a medical condition as established in Section 471(a)(30) of the Social Security Act (the Act);

- **Educational Stability Case Plan Requirements**: A title IV-E agency is required to include a plan for ensuring the educational stability of a child in foster care in the child's case plan as established in section 475(1)(G) of the Act. The plan must include: (1) an assurance that the child's placement in foster care takes into account the appropriateness of the current educational setting and the proximity to the school the child was enrolled in at the time of placement, and (2) an assurance that the title IV-E agency has coordinated with the local education agency or agencies to ensure the child can remain in that school, or if remaining in that school is not in the best interests of the child, an assurance to enroll the child immediately in a new school with all of his or her educational records; and

- **Payments for School Transportation**: The definition of foster care maintenance payments now includes the cost of reasonable travel for the child to remain in the same school he or she was attending prior to placement in foster care (Section 475(4) of the Act). The payment may include these costs regardless of whether the child is in his or her initial foster care placement or
subsequently moves to another foster care placement.

In December 2010, President Obama signed Public Law 111-320, a new 5-year reauthorization of the Child Abuse Prevention and Treatment Act (CAPTA). The Keeping Children and Families Safe Act of 2003, June 25, 2003, (Pub.L. 108-36), encourages Federal support of child protective services linkages with developmental, mental health, early intervention, and health services related to the evaluation and treatment of maltreated children. As a result, CAPTA State grant eligibility is now tied to several State practices intended to promote access to services for at-risk children. Additionally, under the Adoption Opportunities Program, as amended by the CAPTA Reauthorization Act of 2010 (Pub.L. 111-320), the overarching goal is to increase permanency outcomes for children and youth. Support for and efficiency in efforts to sustain or enhance collaborative initiatives that will increase permanency and post-permanency supports is highly consistent with various activities specified to reach program goals.

Need/Rationale

Youth between the ages of 10 and 17 years old are a uniquely vulnerable population in the child welfare system. On average, this age group comprises almost half (48 percent) of the youth who are in foster care in any given year. They also comprise approximately 40 percent of the youth who enter care in any given year, although there are noted differences in trends when the age range is divided into two subgroups. The percent of youth entering care who are ages 10 to 15 years has declined from 34 percent in 2002 to 27 percent in 2009, but the percent of 16 and 17 year olds has increased from 11 percent to 12 percent in that same timeframe (U.S. DHHS, n.d.; U.S. DHHS, 2010).

Academic performance. Older youth in foster care have been shown to be less likely to finish high school, more likely to have poorer academic outcomes, and on average experience more school placements than their peers not in foster care. (Smithgall, Gladden, Duck-Hye, & Goerge, 2005; Stone, Andrade, & Austin, 2007; Burley & Halpern, 2001). Older youth in foster care are more likely to be in alternative school environments than their peers due to placement in residential settings or mental health facilities, loss of credits due to placement changes, or inability to enroll in school in a timely manner. While it is critical to improve the educational stability and outcomes of older high school youth (ages 16 and 17), it is equally critical to ensure the same outcomes for middle and early high school age children (ages 10 to 15) as early intervention efforts may stop the growing trends of older foster care youth leaving care without a high school diploma or plans to acquire a degree in higher education or a vocational certification (Smithgall, Jarpe-Ratner, & Walker, 2010; Courtney, Dworsky, Cusick, Havlcek, Perez, & Keller, 2007).

Social and emotional behavior problems. Children in the child welfare system consistently have been found to be more likely to have social and emotional behavior problems than their peers. In school, youth in foster care have high rates of school behavior problems, and suspensions and expulsions from school (Seyfried, Pecora, Downs, Levine, & Emerson, 2000). Current literature suggests that youth who struggle academically while in foster care were often struggling academically before being placed in out-of-home care. Collaboration and institutionalized partnerships between schools and child welfare agencies are important for early identification and assessment of the needs of children and families (Stone, Andrade, & Austin, 2007). A growing body of literature highlights the critical importance of collaboration between child welfare and education systems to identify early intervention decision points and to address core problems that may underlie behavioral issues that may lead to children and youth being placed in alternative classroom settings or other school settings (Smithgall, Jarpe-Ratner, & Walker, 2010; Smithgall, Gladden, Duck-Hye, & Goerge, 2005; Altshuer, 2003).

Protective mechanisms. In the last 20 years greater attention has been placed on the mechanisms that
protect people when faced with adversity. Risk is a part of childhood and adolescent development, and all children and youth need skills and mechanisms to negotiate risk. In one study conducted by Norman Garmezy, three sets of protective factors are identified as critical to risk negotiation and coping: (1) specific features of the child's personality (i.e., self-esteem), (2) family cohesion, and (3) external support systems (Rutter, 1987). While some children and youth are able to overcome multiple adverse life experiences, others are not able to successfully cope; furthermore, this can vary by circumstance as some resiliency mechanisms may only assist in coping for some risk factors (Rutter, 1987). As children develop and mature, their life experiences can start to differ from others. Protective factors and resiliency mechanisms are different for older children and youth.

Some older children and youth in foster care are better able to navigate the education system and progress towards individual educational goals. While there are some factors or mechanisms of resiliency that may be easily identified that protect against risk, how these protective factors operate in children and youth in the foster care system is largely unknown. It is also clear that the reduction of risk is critical and that, even within a sibling group, not all children are at equal risk (Rutter, 1987). Some resiliency factors include the ability to cope, self-esteem, self-efficacy, and personal relationships. Protective mechanisms for youth include academic achievement, intellectual development, task accomplishment, and engagement in multiple contexts including school, peer relationships, athletics, and employment. There may be artificial or perceived barriers that prevent youth in foster care from participating in the full educational experience. These concepts have specific implications for the educational success of youth in foster care, including educational stability.

Educational stability, an indicator of a child's well-being, is linked to placement stability. Studies have demonstrated that by building protective factors, trauma symptoms and risk behaviors can decrease, leading to increased well-being and more successful permanency outcomes (Griffin, McEwen, Samuels, Suggs, Redd, & McClelland, 2010). Research suggests that interventions that focus on reducing behavioral problems could increase children's placement stability (Chamerblain et al., 2006; Smith, Stormshak, Chamberlain, & Bridges Whaley, 2001).

Projects are encouraged to review literature on promising practices aimed at promoting educational stability and improving educational outcomes among youth in or at risk of entering the child welfare system, including the utilization of appropriate integrated assessments to identify and target the educational needs of youth in foster care and efforts to address barriers that impede collaboration.

**Tips for Preparing a Competitive Application**

It is essential that applicants read the entire announcement package carefully before preparing an application and include all of the required application forms and attachments. The application must reflect a thorough understanding of, and support the purpose and objectives of the applicable legislation. Reviewers expect applicants to understand the goals of the legislation and CB's interest in each topic, and to address and follow all of the evaluation criteria in ways that demonstrate this understanding. Applications that do not clearly address the evaluation criteria or program requirements generally receive very low scores and are rarely funded.

CB's website ([http://www.acf.hhs.gov/programs/cb](http://www.acf.hhs.gov/programs/cb)) provides a wide range of information and links to other relevant websites. Before preparing an application, applicants can learn more about CB's mission and programs by exploring the website.

**Project Requirements**

Projects must coordinate and collaborate to build partnerships and establish policies and protocols within and between child welfare agencies and schools, to promote educational stability and permanency. Projects are encouraged to leverage linkages with other major initiatives aimed at cross-agency systems change in child welfare, education, and related systems, such as courts, juvenile justice, substance abuse, mental health, and domestic violence.
Projects will be expected to demonstrate change in systems functioning to better meet and serve educational needs of middle- to high-school age youth in care resulting in improved educational stability for youth; meaningful involvement of biological, foster, and adoptive parents, kinship care providers and other caregivers, as appropriate; strengthened relationships between child-serving agencies; and improve permanency outcomes for youth. These efforts are expected to build on the current knowledge base on systems change and infrastructure building strategies to increase educational stability for children in or at risk of entering the child welfare system. Projects are expected to:

- Identify the problems within and between the relevant child welfare agencies and education systems that impede the educational progress and school achievement of middle- and high-school age children in the child welfare system, or a subgroup of this population, as appropriate;
- Develop organizational structures to address and resolve educational problems/weaknesses/unmet needs;
- Commit the necessary resources to build infrastructure that will lead to improvements in educational outcomes for the target population;
- As appropriate, coordinate and collaborate to ensure that children in foster care are afforded the Fostering Connections provisions for educational stability including:
  - Immediate enrollment in a new school when remaining in the original school is not in the child's best interest;
  - Prompt transfer of the child's school records to the new school;
  - A procedure for ensuring transportation, when necessary, and in the child's best interest, for a child to remain in the same school he or she was attending prior to placement in foster care.

Target Population

NOTE: See Section IV.2. Content and Form of Application Submission/The Project Description/Approach for instructions for applicants.

Projects must have a clearly defined target population based on an analysis of local data. Within the population of middle- to high-school age youth in the foster care system, projects are encouraged to target subgroups of youth in middle school, high school, or specialized and/or vocational schools. Projects will base their work on the characteristics, needs, and experiences of the children targeted and the appropriateness of the proposed work for the developmental stage(s) of the target population. Projects may focus on specific types of cases (e.g. in-home, foster care, adoptions, youth receiving special education services, youth in transition, youth involved in both juvenile justice and child welfare) and/or geographic service areas.

Building Infrastructure Capacity

NOTE: See Section IV.2 Content and Form of Application Submission/The Project Description/Approach for instructions for applicants.

Meaningful partnerships and sustained coordination efforts across agencies and systems are critical to build infrastructure needed to support comprehensive services and care to children in the child welfare system. This initiative provides an opportunity to bridge the existing knowledge between the development of successful partnerships and collaborations, improved system functioning, and improved outcomes for youth in care. Under this FOA, State, local, or tribal child welfare agencies, as appropriate, and schools may engage a wide array of infrastructure building activities through one or more of the following efforts:

- Develop and implement a model for information and data sharing between schools and child welfare and courts (as applicable), including information on school attendance;
- Develop and implement a model for maintenance of critical educational records for children/youth in foster care to facilitate timely record transfers, when needed;
- Develop and implement behavioral interventions for children/youth in the schools;
- Develop training, shared data collection methods, interagency forms, procedures, and policies that
support educational stability;
• Develop/enhance services to address the educational well-being of children, especially those with special education needs;
• Develop strategies to support multi-disciplinary decision making and conflict resolution between child welfare and education systems;
• Develop strategies to ensure that youth in foster care are able to participate fully in the education setting; and/or
• Promote awareness of all such collaborative efforts among the courts and involve courts as appropriate.

Projects will partner with appropriate child welfare, education, and court systems to increase educational stability.

Examples of strategies aimed at promoting the educational stability and improving educational outcomes for older youth include, but are not limited to:

• Fostering strategic coordination and institutionalized communication among child welfare and educational systems to maximize educational stability for youth in foster care;
• Developing materials and strategies within the educational setting that teach and prepare administrators, classroom teachers, aides, and others to fully engage in establishing learning environments that understand and can address emotional and behavioral challenges resulting from childhood trauma caused by abuse and neglect. Strategies should be developed to enhance efforts across systems aimed at increasing school protective factors, developing children's resiliency, and mitigating the effects of childhood trauma;
• Establishing multi-disciplinary education teams in which the youth -- along with child welfare agency staff, school personnel, court personnel, behavioral health personnel, and the family -- can jointly make education decisions. This may include the development of plans and protocols that assess students' needs to achieve success. Strategies should be developed to promote collaboration to ensure that youth have the opportunity and support to fully participate in all aspects of the school and community experience;
• Developing educational policies, protocols, and information and data-sharing agreements across counties and across the State to minimize disruption caused by school transfers;
• Establishing educational policies and protocols that promote alternative disciplinary approaches that support youth remaining in mainstream classrooms and schools and ensuring educational stability. This includes protocols to transition youth back to mainstream classrooms and schools;
• Establishing policies and protocols that support school liaisons for youth in foster care and the recruitment and training of individuals to serve as educational surrogates for children and youth in care in cases where a parent has not been identified, cannot be located, or is otherwise unable to participate in educational decision-making process, so that planning and service decisions can be made timely and in the best interest of children and youth;
• Providing resource materials and regular updates regarding collaborative efforts to the legal community, specifically judges, guardians ad litem/court appointed special advocates, and children's attorneys, to ensure that educational concerns are regularly addressed in judicial hearings and reviews and that all members of the youth planning team are fully informed of school policy and practice in order to best inform decisions of the best interest of the youth;
• Promoting or developing data-sharing capacity utilizing data sharing agreements, integrated databases, or data exchanges across systems that support or are responsible for the educational success of children and youth in the child welfare system. This may include a model for data sharing between schools and child welfare, including school attendance, school behavior, and enrollment; and
• Developing models between child welfare and education demonstrating successful and effective rapid child specific recruitment initiatives which utilize technology to inform school personnel and families of the immediate need for a foster home when a child is at risk of being moved to a new
community due to a lack of placement resources.

Collaboration

NOTE: See Section IV.2 Content and Form of Application Submission/The Project Description/Approach for instructions for applicants.

Projects are expected to include collaborative efforts between a public child welfare and education agency(ies). The project will have documented commitment from the public child welfare agency(ies) with the responsibility for administering the child welfare program(s) in the targeted geographical area(s), the relevant education agency(ies) or local school districts in the targeted geographical area, the courts having jurisdiction over the targeted child welfare population, and other public/private agencies involved in the proposed work, as appropriate.

Evaluation

CB will expect grantees to engage in a process evaluation of sufficient rigor to demonstrate linkages between project activities and stated objectives. Results from this evaluation are expected to inform programmatic improvements or adjustments, as well as expand the knowledge base on what may be potentially effective strategies for promoting educational stability and increasing educational outcomes for older foster care youth.

Guided by a logic model for the project, the evaluation should be designed to collect systematic data that will empirically determine the extent to which the project has achieved its stated objectives and the extent to which the accomplishment of the objectives can be attributed to project activities. Evaluations should include the analytic method(s) to be used for determining the effectiveness of the strategies and descriptions of data collection tools or assessment instruments if applicable. Both qualitative and quantitative methods are expected. Evaluation results should report relevant outputs and outcomes that appropriately reflect the consequences of the project activities. Where data is available and appropriate, grantees are encouraged to measure outcomes pre\post of the activity.

CB is particularly interested in the:

- Factors and strategies associated with successful partnerships and collaborative efforts;
- Organizational and system conditions necessary to support successful implementation;
- Appropriateness of fit between selected interventions and the system and settings into which they are introduced; and
- Sustainability of work undertaken through selected collaborations and partnerships.

While these 24-month grants are intended for infrastructure building, project logic models may consider long-term child outcomes that are expected to occur after the funding period. Through this funding opportunity, projects are expected to develop capacity for data to measure system functioning. Projects should consider data elements that best relate to their proposed projects. For projects’ consideration, data may include:

**Improved system functioning outcomes**

- The average number of service referrals pre-/post-implementation of multidisciplinary team decision making;
- The average length of time to service referral for youth requiring an educational liaison;
- The percent of parents and youth who participate in educational planning; and
- The number of trainings and workshops developed and provided to educational and child welfare staff, and/or the percent of educational and child welfare staff who attend trainings and workshops, comparing pre- and post- skill development relative to the training and workshop goals.

**Increased school stability and educational outcomes**

- The percent of targeted youth who remained in the same school for at least one academic school
year;
- The percent of targeted youth who had one or more school placement moves during one academic school year;
- The percent of students who transferred schools and had their educational records transferred within 24 hours and 48 hours;
- The percent of students who were eligible for promotion to the next grade;
- The percent of students who graduated from high school;
- The percent of students who had (1) no school suspensions, (2) less than three school suspensions, and (3) three or more school suspensions; and
- The percent of students whose average daily attendance rate was greater than 80 percent in one academic year.

Grantees will regularly update their Federal project officer about ongoing evaluation activities and findings in required progress reporting and provide CB with a written report at the end of the project detailing process evaluation findings, barriers encountered, and noted successes. Grantees in collaboration with each other may produce a comprehensive evaluation report at the conclusion of the project period and present findings to CB and other stakeholders.

Grantees will be expected to conduct a process evaluation of the project. If the grantee does not have the in-house capacity to conduct an objective evaluation of the project, we encourage that the grantee contract with a third-party evaluator specializing in social science or evaluation to conduct the evaluation. It is important that the evaluator has the necessary independence from the project to ensure objectivity. A skilled evaluator can help develop a logic model and assist in designing an evaluation strategy that is appropriate given the goals and objectives of the proposed project. While not required, grantees may expand the scope of the evaluation. For example, grantees may conduct an assessment on the strength of partnerships achieved through the project or build on the process evaluation to include outcome measures to more rigorously evaluate the funded work. Additional assistance may be found in a document titled "Program Manager's Guide to Evaluation." A copy of this document can be accessed at http://www.acf.hhs.gov/programs/opre/other_resrch/pm_guide_eval/index.html.

General information about the HHS Protection of Human Subjects regulations can be obtained at http://www.hhs.gov/ohrp/. Applicants may also contact OHRP by email (ohrp@csophs.dhhs.gov) or by phone (240-453-6900).

Dissemination

NOTE: See Section IV.2 Content and Form of Application Submission/The Project Description/Evaluation for instructions for applicants.

CB expects that knowledge generated by these projects will be shared with the field and integrated into policy and practice. Grantees will be expected to disseminate strategically and effectively, so their project information and knowledge is received by key target audiences and used as intended to achieve identified dissemination goals. Grantees will disseminate their individual project products and findings AND work with the other projects in this grant cluster to disseminate cross-cluster products and findings. Grantees will evaluate the extent to which their target audiences have received project knowledge and used it as intended, and assess the impact of dissemination. Grantees will allocate sufficient staff time and budget for dissemination.

Grantees will be expected to work throughout the course of their projects with Federal Project Officers, the CB Training and Technical Assistance (T/TA) Network, and other projects in this grant cluster to:

- Finalize individual and cluster-wide dissemination goals, objectives, and strategic plan;
- Identify and engage with target audiences for dissemination;
- Produce detailed procedures, materials, and other products based on the program evaluation and the needs of identified target audiences;
- Develop and disseminate summarized/synthesized information about the project; and
• Evaluate their dissemination processes and outcomes.

Dissemination activities are expected to be integrated into the project's work and management plans. See Section IV.2. The Project Description for more about dissemination plan requirements.

Demonstration Projects

Activities funded under this FOA are demonstration projects. At CB, a demonstration project is one that puts into place and tests new, unique, or distinctive approaches for delivering services to a specific population.

Demonstration projects may test whether a program or service that has proven successful in one location or setting can work in a different context. Demonstration projects may test a theory, idea, or method that reflects a new and different way of thinking about service delivery. Demonstration projects may be designed to address the needs of a very specific group of clients or focus on one service component available to all clients. The scope of these projects may be broad and comprehensive or narrow and targeted to specific populations. A demonstration project must:

• Develop and implement an evidence-informed model with specific components or strategies that are based on theory, research, or evaluation data; or replicate or test the transferability of successfully evaluated program models;
• Determine the effectiveness, costs, and benefits of the model and its components or strategies using a rigorous evaluation approach;
• Disseminate strategically and collaborate effectively with other projects in the grant cluster to establish goals; identify and engage with target audiences; produce detailed procedures, materials, and other products based on the programs' evaluations; and disseminate information about project activities, products, and findings; and
• Contribute to the evidence base on strategies, practices, and programs that may be used to guide replication, program improvements, systems change, or testing in other settings.

Working with Other CB Discretionary Grant Projects

CB currently funds approximately 300 discretionary grants projects in over 50 different program areas. Through their work with a broad spectrum of populations within the child welfare arena, discretionary grantees develop a wealth of knowledge across numerous program areas. The findings from these programs can be useful in informing the field. Specifically, CB has addressed the important issues related to child welfare and partnerships to expand protective factors for youth with child welfare involvement, including various formulas and issues surrounding discretionary grants. Projects are strongly encouraged to utilize the knowledge being developed by CB discretionary research and demonstration projects and other related T/TA activities when developing proposals in response to this FOA. For more information on CB discretionary grant programs, please see http://www.acf.hhs.gov/programs/cb/programs_fund/index.htm#disc and http://basis.caliber.com/cbgrants/ws/library/docs/cb_grants/GrantHome.

II. Award Information

Funding Instrument Type: Grant
Estimated Total Funding: $2,500,000
Expected Number of Awards: 10
Award Ceiling: $250,000 Per Budget Period
Award Floor: $25,000 Per Budget Period
Average Projected Award Amount: $250,000 Per Budget Period

Length of Project Periods:
24-month project with two 12-month budget periods

Additional Information on Awards:
Awards made under this announcement are subject to the availability of Federal funds.

Note: For those programs that require matching or cost sharing, grantees will be held accountable for projected commitments of non-Federal resources in their application budgets and budget justifications,
even if the projected commitment exceeds the required amount of match or cost share. A grantee’s failure to provide the required matching amount will result in the disallowance of Federal funds.

Please see Section IV.5 Funding Restrictions for limitations on the use of grant funds awarded under this announcement.

III. Eligibility Information

III.1. Eligible Applicants

Eligibility Category:
- State governments
- County governments
- City or township governments
- Independent school districts
- Public and State controlled institutions of higher education
- Native American tribal governments (Federally recognized)
- Native American tribal organizations (other than Federally recognized tribal governments)
- Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education
- Nonprofits without 501(c)(3) status with the IRS, other than institutions of higher education
- Private institutions of higher education

Collaborative efforts are strongly encouraged, but applicants must identify a primary applicant responsible for administering the grant.

If the primary applicant responsible for administering the grant is a non-profit organization or institution of higher education, the applicant must document a strong partnership with the public child welfare agency(ies) that is responsible for administering the child welfare program(s) and education agencies in the targeted geographical area(s), and if applicable, courts having jurisdiction over the targeted child welfare population.

Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards under this announcement. See Section III.3. Other.

Faith-based and community organizations that meet eligibility requirements are eligible to receive awards under this funding opportunity announcement.

See "Legal Status of Applicant Entity" in Section IV.2 for documentation required to support eligibility.

III.2. Cost Sharing or Matching

Cost Sharing / Matching Requirement: No

III.3. Other

DUNS Number (Universal Identifier) and Central Contractor Registration (CCR) Requirements

DUNS Number Requirement

Data Universal Numbering System (DUNS) Number is the nine-digit, or thirteen-digit (DUNS + 4), number established and assigned by Dun and Bradstreet, Inc. (D&B) to uniquely identify business entities.
All applicants and subrecipients must have a DUNS number at the time of application in order to be considered for a grant or cooperative agreement. A DUNS number is required whether an applicant is submitting a paper application or using the Government-wide electronic portal, www.Grants.gov. A DUNS number is required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement, and block grant programs. A DUNS number may be acquired at no cost online at http://fedgov.dnb.com/webform. To acquire a DUNS number by phone, contact the D&B Government Customer Response Center:

U.S. and U.S Virgin Islands: 1-866-705-5711
Alaska and Puerto Rico: 1-800-234-3867 (Select Option 2, then Option 1)
Monday - Friday 7 a.m. to 8 p.m., CST

The process to request a D-U-N-S Number by telephone will take between 5 and 10 minutes.

Central Contractor Registration (CCR) Requirement

Central Contractor Registration (CCR) is the Federal registrant database and repository into which an entity must provide information required for the conduct of business as a recipient. CCR, managed by the General Services Administration, collects, validates, stores, and disseminates data in support of agency financial assistance missions.

Effective October 1, 2011, HHS required all entities that plan to apply for, and ultimately receive, Federal grant funds from any HHS Agency, or receive subawards directly from recipients of those grant funds to:

- Be registered in the CCR prior to submitting an application of plan;
- Maintain an active CCR registration with current information at all times during which it has an active award or an application or plan under consideration by an OPDIV; and
- Provide its DUNS number in each application or plan it submits to the OPDIV.

ACF is prohibited from making an award until an applicant has complied with these requirements. At the time an award is ready to be made, if the intended recipient has not complied with these requirements, ACF:

- May determine that the applicant is not qualified to receive an award; and
- May use that determination as a basis for making an award to another applicant.

Additionally, all first-tier subaward recipients (i.e., direct subrecipient) must have a DUNS number at the time the subaward is made

CCR registration may be made online at www.ccr.gov or by phone at 1-866-606-8220. CCR registration must be updated annually. CCR registration must be active and maintained with current information at all times during which an organization has an active award or an application under consideration.

Applicants are strongly encouraged to register at the CCR well in advance of the application due date.

APPLICATION DISQUALIFICATION FACTORS

Applications from individuals, foreign entities, or sole proprietorship organizations will be disqualified from competitive review and from funding under this announcement.

Award Ceiling Disqualification
Applications that request an award amount exceeding the *Award Ceiling* per budget period, or per project period, as stated in *Section II. Award Information*, will be disqualified from competitive review and from funding under this announcement. This disqualification applies only to the *Award Ceiling* listed for first 12-month budget period for projects with multiple budget periods. If the project and budget period are the same, the disqualification applies to the *Award Ceiling* listed for the project period.

**Application Submission Disqualifications**

**Beginning January 1, 2012,** ACF requires electronic submission of applications at [www.Grants.gov](http://www.Grants.gov). Applicants that do not have an Internet connection or sufficient computing capacity to upload large documents (files) to the Internet may contact ACF for an exemption that will allow these applicants to submit an application in paper format. Information on requesting an exemption from electronic application submission is found in *Section IV.2. Application Submission Options*.

The deadline for electronic application submission is 11:59 p.m., ET, on the due date listed in the *Overview* and in *Section IV.3. Submission Dates and Times*. Electronic applications submitted to [www.Grants.gov](http://www.Grants.gov) after 11:59 p.m., ET, on the due date, as indicated by a dated and time-stamped email from [www.Grants.gov](http://www.Grants.gov), will be disqualified from competitive review and from funding under this announcement. That is, applications submitted to [www.Grants.gov](http://www.Grants.gov), on or after 12:00 a.m., ET, on the day after the due date will be disqualified from competitive review and from funding under this announcement.

**Please Note**: Applications submitted to [www.Grants.gov](http://www.Grants.gov) at any time during the open application period, and prior to the due date and time, which fail the Grants.gov validation check, will not be received at ACF. These applications will not be acknowledged. Applications that fail the Grants.gov validation check are not transmitted to ACF though they may have been submitted on time.

Each time an application is submitted via [www.Grants.gov](http://www.Grants.gov), the application will receive a new date and time-stamp email. Only those applications with on-time date and time stamps that result in a validated application, which are transmitted to ACF, will be acknowledged.

The deadline for receipt of paper applications is 4:30 p.m., ET, on the due date listed in the *Overview* and in *Section IV.3. Submission Dates and Times*. Paper applications received after 4:30 p.m., ET, on the due date will be disqualified from competitive review and from funding under this announcement.

Paper applications received from applicants that have not requested an exemption from required electronic submission will be disqualified from competitive review and from funding under this announcement. See "Request an Exemption from Required Electronic Application Submission" in *Section IV.2. Content and Form of Application Submission*.

Applications that are disqualified under any of these circumstances will receive written notification by letter or by email.

Read and observe the formatting instructions for application submissions in *Section IV.2. Content and Form of Application Submission*.

---

**Section IV. Application and Submission Information**
IV.1. Address to Request Application Package

CB Operations Center
c/o Lux Consulting Group
8405 Colesville Road, Suite 600
Silver Spring, MD 20910
Phone: (866) 796-1591
Email: cb@luxcg.com

Electronic Application Submission:

Applications in Paper Format:
For applicants that have received an exemption to submit applications in paper format, Standard Forms, assurances, and certifications are available at the ACF Funding Opportunities Forms webpage at [http://www.acf.hhs.gov/grants/grants_resources.html](http://www.acf.hhs.gov/grants/grants_resources.html). See Section IV.2. Request an Exemption from Required Electronic Application Submission if applicants do not have an Internet connection or sufficient computing capacity to upload large documents (files) to [www.Grants.gov](http://www.Grants.gov).

Standard Forms that are compliant with Section 508 of the Rehabilitation Act (29 U.S.C. § 794d):

Federal Relay Service:
Hearing-impaired and speech-impaired callers may contact the Federal Relay Service for assistance at 1-800-877-8339 (TTY - Text Telephone or ASCII - American Standard Code For Information Interchange).

Section IV.2. Content and Form of Application Submission

FORMATTING ACF APPLICATIONS

For All ACF Applications:

**Authorized Organizational Representative (AOR)**
The individual(s), named by the applicant/recipient organization, who is authorized to act for the applicant/recipient and to assume the obligations imposed by the Federal laws, regulations, requirements, and conditions that apply to grant applications or awards.

Each applicant must designate an Authorized Organizational Representative (AOR). An AOR is named by the applicant, and is authorized to act for the applicant, to assume the obligations imposed by the Federal laws, regulations, requirements, and conditions that apply to the grant application or awards.

AOR Authorization is part of the registration process at [www.Grants.gov](http://www.Grants.gov) where the AOR will create a short profile and obtain a username and password from the Grants.gov Credential Provider. AORs will only be authorized for the DUNS number registered in the Central Contractor Registration (CCR).

**Point of Contact**
In addition to the AOR, a point of contact on matters involving the application must also be identified. The
point of contact, known as the Project Director or Principal Investigator, should not be identical to the person identified as the AOR. The point of contact must be available to answer any questions pertaining to the application.

Application Checklist
Applicants may refer to Section VIII. Other Information for a checklist of application requirements that may be used in developing and organizing application materials. Details concerning acknowledgment of received applications are available in Section IV.3. Submission Dates and Times of this announcement.

Follow the instructions provided in the formatting section to ensure that your application can be printed efficiently and consistently for the competitive review.

Observe page limitations.
All applicants must follow the instructions provided in this section. Be sure to print all attachments (components) on paper and count the number of pages before submission. Keep the printed copy as a hard copy of your application for your files.

Application Package Components
Applications must be divided into the sections listed in the table. (The order in which components are submitted electronically via www.Grants.gov or included in a paper application may not be the same as listed in the table.) Page limitations apply to the Project Description document and the Appendices and the following:

- The Project Summary/Abstract is limited to one single-spaced page.
- The Budget Justification should be no more than 10 single-spaced pages and will not count against page limitations.

<table>

ELECTRONIC APPLICATIONS SUBMITTED VIA www.Grants.gov:

Notice: The Administration for Children and Families has implemented required electronic application submission via www.Grants.gov. Applicants are now required to submit their applications electronically unless they have requested and received an exemption that will allow submission in paper format. See Section IV.2. Application Submission Options.
Electronic applications will only be accepted via www.Grants.gov. ACF will not accept applications submitted via email or via facsimile. Only applications, which pass the Grants.gov validation check, will be acknowledged.

Please read this section carefully before beginning application submission. It is mandatory to follow the instructions provided in this section to ensure that your application can be printed efficiently and consistently for review.

Copies Required
Applicants must submit one complete copy of the application package electronically. Applicants submitting electronic applications need not provide additional copies of their application package.

NOTE: Applications submitted via www.Grants.gov will undergo a validation check. See Section IV.2. Application Submission Options and Section IV.3. Submission Due Dates and Times, Explanation of Due Dates. The validation check can affect whether the application is accepted for review. Applications that fail the www.Grants.gov validation check will not be transmitted to ACF. If the application fails the validation check and is not resubmitted by 11:59 p.m., ET, on the due date, it will be disqualified.

Signatures
Follow the AOR Authorization and E-Biz POC instructions provided at www.Grants.gov.

Required OMB-Approved and Standard Forms (SFs)
www.Grants.gov provides its own protocols for the submission of OMB-approved and Standard Forms (SFs) such as the SF-424 application and budget forms and the SF-P/PSL, Project/Performance Site Location form. See Section IV.2. Required Forms, Assurances, and Certifications for required OMB-approved Standard Forms and required assurances and certifications.

Application Package Components
Applications must be divided into the sections listed in the table. It is important that each component is submitted in a separate electronic file. Page limitations apply to the Project Description document and the Appendices and the following:

- The Project Summary/Abstract is limited to one single-spaced page.
- The Budget Justification should be no more than 10 single-spaced pages.

<table>
<thead>
<tr>

<td>No page limitations.</td>
</tr>
<tr>
<td>Appendices</td>
<td>Page Limitations and included items are listed later in this section.</td>
</tr>
</tbody>
</table>
The required content of the Project Description and any Appendices, and their page limits, are listed later in this section.

With the exception of the required Standard Forms (SFs), all application materials must be submitted formatted so that they will print out onto 8 ½" x 11" white paper with 1-inch margins. **All pages of the application component, i.e., Project Description, Budget Justification, Appendices, must be sequentially numbered.** Applicants should print all attachments on paper and count the number of pages before submission. Applicants should keep a hard copy of the submitted application package for their files. The font size on any scanned documents must be large enough so that it is readable.

All elements of the application submission, with the exception of the one-page Project Summary/Abstract, the Budget Justification, required Assurances and Certifications, and proof of legal status/non-profit status, must be in double-spaced format in 12-point font. The Project Summary/Abstract is required to be one single-spaced page in 12-point font. The Budget Justification may be single-spaced page in 12-point font and should be no more than 10 pages. The font size on any scanned documents must be large enough so that it is readable.

**Applicants must follow the instructions provided in this section:**

Limit file names to 50 characters and do not use special characters (example: &,-,*,%,/,#) including periods (.), blank spaces, and accent marks, within application form fields, and file attachment names. An underscore (_) may be used to separate a file name.

**Use only file formats supported by ACF.**

It is critical that applicants only submit application components using the supported file formats listed here. Documents in file formats that are not supported by ACF will be removed from the application and will not be used in the competitive review. This may make the application incomplete and ACF will not make any awards based on an incomplete application.

**ACF supports the following file formats:**

- Adobe PDF – Portable Document Format (.pdf)
- Microsoft Word (.doc or .docx)
- Microsoft Excel (.xls or .xlsx)
- Microsoft PowerPoint (.ppt)
- Corel WordPerfect (.wpd)
- Image Formats (.JPG, .GIF, .TIFF, or .BMP only)

**Do not encrypt or password protect the electronic application files!**

If ACF cannot access submitted electronic files because they have been encrypted or are password protected, the affected file will be removed from the application and will not be used in the competitive review. This may make the application incomplete and ACF will not make any awards based on an incomplete application.

**PAPER APPLICATION SUBMISSIONS:**

The following requirements are only applicable to applications submitted in paper format.

**Applicants must receive an exemption from ACF in order to submit an application in paper format.**

See **Section IV.2. Request an Exemption from Required Electronic Application Submission** later in this section under **Application Submission Options**.

<table>

</tbody>
</table>

**Copies Required**
Applicants must provide one original and two copies of all application materials when submitting an application in paper format.

**Signatures**
An original signature of the AOR is required only on the original copy of hard copy application submissions. A point of contact on matters involving the application must also be identified on the SF-424 at item 8f. The point of contact, known as the Project Director or Principal Investigator, should not be identical to the person identified as the AOR.

**Format Requirements for Paper Applications**
All application materials must be submitted on 8½" x 11" white paper with 1-inch margins. **All pages of the paper application submission must be sequentially numbered.** Applicants must follow the instructions provided in this section.

All elements of the application submission, with the exception of the one-page Project Summary/Abstract, the Budget Justification, required Assurances and Certifications, and proof of legal status/non-profit status, must be in double-spaced format in 12-point font. The Project Summary/Abstract is required to be one single-spaced page in 12-point font. The Budget Justification may be single-spaced page in 12-point font and should be no more than 10 pages. The font size on any scanned documents must be large enough so that it is readable.

All copies of a mailed or hand-delivered paper application must be submitted in a single package. A separate package must be submitted for application under a single funding opportunity. The package must be clearly labeled for the specific funding opportunity it is addressing.

Because each application will be duplicated, do not use or include separate covers, binders, clips, tabs, plastic inserts, maps, brochures, or any other items that cannot be processed easily on a photocopy machine with an automatic feed. Do not bind, clip, staple, or fasten in any way separate subsections of the application, including supporting documentation. Use a clip (not a staple) to securely bind the application together. Applicants are advised that the copies of the application submitted, not the original, will be reproduced by the Federal government for review. Application materials must be one-sided for duplication purposes.

Instructions on the order of assembly for paper application submissions are available under this formatting.
Addresses for Submission of Paper Applications
See Section IV.6. Other Submission Requirements for addresses for paper application submissions.

Page Limitations for Paper Format Application Submissions
Page limitations do not include OMB-approved Standard Forms (SFs), the one-page Project Summary/Abstract, proof of legal status/non-profit status, required Assurances and Certifications, and the Budget Justification, which should be no more than 10 single-spaced pages.

If an application exceeds the cited page limitation for double-spaced pages in the Project Description or the double-spaced page limitation cited for the Appendices, the extra pages will be removed and will not be reviewed. In addition, if an application narrative is single-spaced and/or one-and-a-half spaced (in whole or in part) the total number of these lines will be doubled. This adjustment may result in an increased total number of pages, which will be removed so that the application conforms to the cited double-spaced page limitation.

The Project Summary/Abstract is limited to one single-spaced page with 12-point font. Any pages over the one-page limit will be removed.

Page Limitations and Content of The Project Description and Appendices for All Application Formats:

Additional Instructions for Electronic and Paper Applications Under this FOA

Organizing the Application. Applicants must follow the general instructions above in the section labeled Application Package Components. In addition, applicants must adhere to the following instructions for organizing the Project Description and Appendices sections of the Application Package under this FOA. Note that the page limit for the Budget Justification section is expanded under this FOA.

Organizing the Project Description and Appendices. Reviewers will use the specific evaluation criteria in Section V. Application Review Information of this FOA to review and evaluate each application. The applicant should address each of these specific evaluation criteria in the project description. Applicants should organize their Project Description and Appendices in this sequence so that reviewers can readily find information that directly addresses each of the specific review criteria:

The Project Description must include the following items in this order:
1. Table of Contents
2. Objectives and Need for Assistance
3. Approach
4. Evaluation
5. Organizational Capacity

The Appendices must include the following items in this order:
1. Logic Model
2. Third-party agreements
3. Staff and Position Data
4. Indirect Cost Rate Letter (if applicable)

Page limits. The Project Description and Appendices combined are limited to a total of 100 pages. Under this FOA, the Budget Justification may be expanded to 20 pages.

Formatting. Charts, budget tables, third-party agreements, staff and position data, supplemental letters, and documents, applicants must be in 10-point font or larger and may be single spaced.
Applicants seeking grant or cooperative agreement awards under this announcement must submit the listed Standard Forms (SFs), assurances, and certifications with the application. All required Standard Forms, assurances, and certifications are available at [ACF Funding Opportunities Forms](#) or at the [Grants.gov Forms Repository](#) unless specified otherwise.

</tbody>
</table>
Project Assurances

The applicant's signature on the application constitutes its assurance that it will comply with the following requirements:

1. Have the project fully functioning within 90 days following the notification of the award.
2. Participate if CB chooses to do a cross-site evaluation or a technical assistance contract that relates to this FOA.
3. Submit all performance indicator data, program, evaluation, and financial reports in a timely manner (see Section VI.3 Submission Dates and Times), in the recommended formats (to be provided).
   Grantees may submit the interim and final reports and attachments on disk or electronically using a standard word-processing program; however, grantees are required to provide the original and two copies of interim and final reports.
4. Submit an original and two copies of the final program/evaluation report and any program products to CB within 90 days of project end date.
5. CB reserves the right to secure and distribute grantee products and materials, including copies of journal articles written by grantees about their grant projects.
6. All grantee materials, products, publications, news releases, etc., will include this notice-

Funded through the Department of Health and Human Services, Administration for Children and Families, Children's Bureau, Grant #______ The contents of this publication do not necessarily reflect the views or policies of the funders, nor does the mention of trade names, commercial products or organizations imply endorsement by the U.S Department of Health and Human Services. This information is in the public domain. Readers are encouraged to copy and share it, but please credit ___________.

Non-Federal Reviewers

Since ACF will be using non-Federal reviewers in the review process, applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget as well as Social Security Numbers, if otherwise required for individuals. The copies may include summary salary information. If applicants are submitting their application electronically, ACF will omit the same specific salary rate information from copies made for use during the review and selection process.

The Project Description

The Project Description Overview

The project description provides the majority of information by which an application is evaluated and ranked in competition with other applications for available assistance. The project description should be concise and complete. It should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing the project description, information that is responsive to each of the requested evaluation criteria must be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application in a manner that is clear and complete.

General Expectations and Instructions

ACF is particularly interested in specific project descriptions that focus on outcomes and convey strategies for achieving intended performance. Project descriptions are evaluated on the basis of substance and measurable outcomes, not length. Extensive exhibits are not required. Cross-referencing should be used rather than repetition. Supporting information concerning activities that will not be directly funded by the grant or information that does not directly pertain to an integral part of the grant-funded activity should be
placed in an appendix.

General Instructions for Preparing a Full Project Description

Introduction
Applicants that are required to submit a full project description shall prepare the project description statement in accordance with the following instructions while being aware of the specified evaluation criteria. The topics listed in this section provide a broad overview of what the project description should include while the Criteria in Section V.1. identify the measures that will be used to evaluate applications.

Table of Contents
List the contents of the application including corresponding page numbers.

Project Summary/Abstract
Provide a summary of the application's project description. The summary must be clear, accurate, concise, and without reference to other parts of the application. The abstract must include a brief description of the proposed grant project including the needs to be addressed, the proposed services, and the population group(s) to be served.

Please place the following at the top of the abstract:

- Project Title
- Applicant Name
- Address
- Contact Phone Numbers (Voice, Fax)
- E-Mail Address
- Web Site Address, if applicable

The project abstract must be single-spaced and limited to one page in length.

Objectives And Need For Assistance
Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance including the nature and scope of the problem must be demonstrated, and the principal and subordinate objectives of the project must be clearly and concisely stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies or needs assessments should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the funding opportunity announcement.

Approach
Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities
accomplished. Data may be organized and presented as project tasks and subtasks with their corresponding timelines during the project period. For example, each project task could be assigned to a row in the first column of a grid. Then, a unit of time could be assigned to each subsequent column, beginning with the first unit (i.e., week, month, quarter) of the project and ending with the last. Shading, arrows, or other markings could be used across the applicable grid boxes or cells, representing units of time, to indicate the approximate duration and/or frequency of each task and its start and end dates within the project period.

When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

Provide a list of organizations, cooperating entities, consultants, or other key individuals who will work on the project, along with a short description of the nature of their effort or contribution.

Note: Applicants must define, describe, and justify their proposed target population(s), such as youth in middle school, high school, or specialized and/or vocational schools, by presenting an analysis of local data. Applicants must justify their proposed work based on characteristics, needs, and experiences of the children targeted and the appropriateness of the proposed work for the developmental stage(s) of the target population. Applicants may choose to narrow the scope of their efforts by focusing on specific types of cases (e.g. in-home, foster care, adoptions, youth receiving special education services, youth in transition, youth involved in both juvenile justice and child welfare) and/or geographic service areas.

Note: Collaborative efforts between a public child welfare agency(ies) and education agency(ies) are required. Applicants must identify a primary applicant responsible for administering the grant. The primary applicant responsible for administering the grant must document a strong partnership with the public child welfare agency(ies) that has the responsibility for administering the child welfare program(s) in the targeted geographical area(s) and the relevant education agency(ies) in the targeted geographical area. The applicant must also document support of the courts having jurisdiction over the targeted child welfare population and other public/private agencies involved in the proposed work, as appropriate. This documentation must include the following:

- Letter(s) of commitment or MOU(s) from the relevant public child welfare agency(ies) and education agency(ies), which describe, in detail, the roles and responsibilities of the project partners;
- Evidence that the public child welfare agency(ies) and education agency(ies) fully understand the proposed project goals the roles of their agency, are fully committed to the proposed project, and demonstrate a willingness to be fully engaged in the activities that are described in the application;
- Evidence that the relevant public child welfare agency(ies) will follow through on the commitments of the proposed project, regardless of changes in administration, economic status, or other foreseeable factors;
- Any other evidence that would demonstrate the full commitment of the relevant public child welfare agency(ies) and education agency(ies) to make the proposed project a success;
- Letter of commitment from the lead judge of the court(s) having jurisdiction over the targeted child welfare population; and
- Letter(s) of commitment from all other public/private agencies involved in the proposed work.

Note: Applicants are expected to propose a dissemination plan and integrate this plan into the project's work plan and management plan. The dissemination plan must address:

- Target audience (e.g., project partners; potential referral sources and project participants; funders; system managers; other States/agencies who might adopt this model or adapt their model based on what was learned; and T/TA providers and Clearinghouses who can take project and cluster information, products, and findings and transfer them to those who need it)
Timeline for dissemination (e.g., what will be done, when, and by whom)

Note: Applicants are required to submit timelines that must cover each major milestone and target date that applicants proposed to meet utilizing grant funds. They must support the description of a clear plan to meet the project's goals. They must include all major tasks associated with the project, and they must include all major milestones and target dates. They must be comprehensive and reasonable within the context of a 24-month project.

Evaluation

Provide a narrative addressing how the conduct of the project and its results will be evaluated. In addressing the evaluation of results, state what measures will be used to determine the extent to which the project has achieved its stated objectives and the extent to which the accomplishment of objectives can be attributed to the project. Discuss the criteria to be used to evaluate results, and explain the methodology that will be used to determine if the needs identified and discussed are being met and if the project results and benefits are being achieved. With respect to the conduct of the project, define the procedures to be employed to determine whether the project is being conducted in a manner consistent with the work plan presented and discuss the impact of the project's various activities that address the project's effectiveness.

Note: Project evaluations are very important. If the applicant does not have the in-house capacity to conduct an objective, comprehensive evaluation of the project, then CB advises that the applicant contract with a third-party evaluator specializing in social science or evaluation, or a university or college, to conduct the evaluation. In either case, it is important that the evaluator has the necessary independence from the project to ensure objectivity. A skilled evaluator can help develop a logic model and assist in designing an evaluation strategy that is rigorous and appropriate given the goals and objectives of the proposed project. Additional assistance may be found in a document titled "Program Manager's Guide to Evaluation." A copy of this document can be accessed at http://www.acf.hhs.gov/programs/opre/other_resrch/pm_guide_eval/index.html. The applicant must have a sound plan for securing informed consent and implementing an institutional review board (IRB) review, if applicable.

Geographic Location

Describe the precise location of the project and boundaries of the area to be served by the proposed project. Maps or other graphic aids may be attached.

Legal Status of Applicant Entity

Applicants must provide the following documentation of their legal status:

Proof of Non-Profit Status

Non-profit organizations applying for funding are required to submit proof of their non-profit status. Proof of non-profit status is any one of the following:

- A reference to the applicant organization's listing in the IRS's most recent list of tax-exempt organizations described in the IRS Code.
- A copy of a currently valid IRS tax-exemption certificate.
- A statement from a State taxing body, State attorney general, or other appropriate State official certifying that the applicant organization has non-profit status and that none of the net earnings accrue to any private shareholders or individuals.
- A certified copy of the organization's certificate of incorporation or similar document that clearly establishes non-profit status.
- Any of the items in the subparagraphs immediately above for a State or national parent organization and a statement signed by the parent organization that the applicant organization is a local non-profit
When applying electronically, proof of non-profit status may be submitted as an attachment; however, proof of non-profit status must be submitted prior to award.

**Logic Model**
Applicants are expected to use a model for designing and managing their project. A logic model is a tool that presents the conceptual framework for a proposed project and explains the linkages among program elements. While there are many versions of the logic model, they generally summarize the logical connections among the needs that are the focus of the project, project goals and objectives, the target population, project inputs (resources), the proposed activities/processes/outputs directed toward the target population, the expected short- and long-term outcomes the initiative is designed to achieve, and the evaluation plan for measuring the extent to which proposed processes and outcomes actually occur.

**Project Sustainability Plan**
Provide a plan for sustainability that details how the proposed project approach will create project self-sufficiency and help to ensure that the impact of the project will continue after Federal assistance has ended. The applicant may include information on plans to secure additional financial resources.

**Dissemination Plan**
Provide a plan for distributing reports and other project outputs to colleagues and to the public. Applicants must provide a description of the method, volume, and timing of distribution.

**Third-Party Agreements**
Provide written and signed agreements between grantees and subgrantees, or subcontractors, or other cooperating entities. These agreements must detail the scope of work to be performed, work schedules, remuneration, and other terms and conditions that structure or define the relationship.

**The Project Budget and Budget Justification**
All applicants are required to submit a project budget and budget justification with their application. The project budget is input on the Budget Information Standard Form, either SF-424A or SF-424C. The budget justification is a line-item detail that includes detailed calculations for "object class categories" identified on the Budget Information Standard Form. Calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. If matching or cost sharing is a requirement, applicants must include a detailed listing of any funding sources identified in Block 18 of the SF-424 (Application for Federal Assistance).

Project budget Standard Forms and the budget justification will not count toward page limitations; however, the justification should be no more than 10 single-spaced pages with fonts of no less than 12-points.

*Special Note: The Consolidated Appropriations Act, 2012 (Pub.L. 112-74), enacted December 23, 2011, limits the salary amount that may be awarded and charged to ACF grants and cooperative agreements. Award funds issued under this announcement may not be used to pay the salary, or any percentage of salary, to an individual at a rate in excess of Executive Level II. The Executive Level II salary of the Federal Executive Pay scale is $179,700 ([http://www.opm.gov/oca/12tables/html/ex.asp](http://www.opm.gov/oca/12tables/html/ex.asp)). This amount reflects an individual’s base salary exclusive of fringe and any income that an individual may be permitted to earn outside of the duties to the applicant organization. This salary limitation also applies to subawards/subcontracts under a ACF grant or cooperative agreement.*
Provide a narrative budget justification for the proposed project that is being fully funded (the budget period and project period are the same). The narrative budget justification should describe how the categorical costs are derived. Discuss the necessity, reasonableness, and allocation of the proposed costs.

**Note:** Allocate sufficient funds in the budget to support required travel:

- **Within 3 months after the award**, the project director, child welfare liaison (if different from the project director), evaluator, and/or other key staff must attend a 2- to 3-day kick-off meeting in Washington, DC.
- **The project director, the child welfare agency liaison** (if different from the project director), the evaluator, and/or other key staff must attend the annual grantee meeting, usually held in the spring, in Washington, DC.

**General**

Use the following guidelines for preparing the budget and budget justification. Both Federal and non-Federal resources (when required) shall be detailed and justified in the budget and budget narrative justification. "Federal resources" refers only to the ACF grant funds for which you are applying. "Non-Federal resources" are all other non-ACF Federal and non-Federal resources. It is suggested that budget amounts and computations be presented in a columnar format: first column, object class categories; second column, Federal budget; next column(s), non-Federal budget(s); and last column, total budget. The budget justification should be in a narrative form.

**Personnel**

Description: Costs of employee salaries and wages.

Justification: Identify the project director or principal investigator, if known at the time of application. For each staff person, provide: the title; time commitment to the project in months; time commitment to the project as a percentage or full-time equivalent; annual salary; grant salary; wage rates; etc. Do not include the costs of consultants, personnel costs of delegate agencies, or of specific project(s) and/or businesses to be financed by the applicant.

**Fringe Benefits**

Description: Costs of employee fringe benefits unless treated as part of an approved indirect cost rate.

Justification: Provide a breakdown of the amounts and percentages that comprise fringe benefit costs such as health insurance, Federal Insurance Contributions Act (FICA) taxes, retirement insurance, taxes, etc.

**Travel**

Description: Costs of project-related travel by employees of the applicant organization. (This item does not include costs of consultant travel).

Justification: For each trip show: the total number of traveler(s); travel destination; duration of trip; per diem; mileage allowances, if privately owned vehicles will be used to travel out of town; and other transportation costs and subsistence allowances. If appropriate for this project, travel costs for key staff to attend ACF-sponsored workshops should be detailed in the budget.

**Equipment**
Description: "Equipment" means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost that equals or exceeds the lesser of: (a) the capitalization level established by the organization for the financial statement purposes, or (b) $5,000. (Note: Acquisition cost means the net invoice unit price of an item of equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in-transit insurance, freight, and installation, shall be included in or excluded from acquisition cost in accordance with the organization's regular written accounting practices.)

Justification: For each type of equipment requested provide: a description of the equipment; the cost per unit; the number of units; the total cost; and a plan for use on the project; as well as use and/or disposal of the equipment after the project ends. An applicant organization that uses its own definition for equipment should provide a copy of its policy, or section of its policy, that includes the equipment definition.

Supplies
Description: Costs of all tangible personal property other than that included under the Equipment category.

Justification: Specify general categories of supplies and their costs. Show computations and provide other information that supports the amount requested.

Contractual
Description: Costs of all contracts for services and goods except for those that belong under other categories such as equipment, supplies, construction, etc. Include thirdparty evaluation contracts, if applicable, and contracts with secondary recipient organizations, including delegate agencies and specific project(s) and/or businesses to be financed by the applicant.

Justification: Demonstrate that all procurement transactions will be conducted in a manner to provide, to the maximum extent practical, open and free competition. Recipients and subrecipients, other than States that are required to use 45 CFR Part 92 procedures, must justify any anticipated procurement action that is expected to be awarded without competition and exceeds the simplified acquisition threshold fixed at 41 U.S.C. 403(11), currently set at $100,000. Recipients may be required to make pre-award review and procurement documents, such as requests for proposals or invitations for bids, independent cost estimates, etc. available to ACF.

Note: Whenever the applicant intends to delegate part of the project to another agency, the applicant must provide a detailed budget and budget narrative for each delegate agency, by agency title, along with the same supporting information referred to in these instructions.

Other
Description: Enter the total of all other costs. Such costs, where applicable and appropriate, may include but are not limited to: local travel; insurance; food; medical and dental costs (noncontractual); professional services costs; space and equipment rentals; printing and publication; computer use; training costs; such as tuition and stipends; staff development costs; and administrative costs.

Justification: Provide computations, a narrative description and a justification for each cost under this category.

Indirect Charges
Description: Total amount of indirect costs. This category should be used only when the applicant currently has an indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

Justification: An applicant that will charge indirect costs to the grant must enclose a copy of the current rate agreement. If the applicant organization is in the process of initially developing or renegotiating a rate, upon notification that an award will be made, it should immediately develop a tentative indirect cost rate proposal based on its most recently completed fiscal year, in accordance with the cognizant agency's guidelines for establishing indirect cost rates, and submit it to the cognizant agency. Applicants awaiting approval of their indirect cost proposals may also request indirect costs. When an indirect cost rate is requested, those costs included in the indirect cost pool should not be charged as direct costs to the grant. Also, if the applicant is requesting a rate that is less than what is allowed under the program, the authorized representative of the applicant organization must submit a signed acknowledgement that the applicant is accepting a lower rate than allowed.

Program Income
Description: The estimated amount of income, if any, expected to be generated from this project.

Justification: Describe the nature, source and anticipated use of program income in the budget or refer to the pages in the application that contain this information.

Paperwork Reduction Disclaimer
As required by the Paperwork Reduction Act, 44 U.S.C. §§ 3501-3520, the public reporting burden for the Project Description is estimated to average 40 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection information. The Project Description information collection is approved under OMB control number 0970-0139, which expires 11/30/2012. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Application Submission Options

- Electronic applications must be submitted to www.Grants.gov by 11:59 p.m., ET, on the due date.
- A DUNS Number and current registration at the Central Contractor Registry (CCR) are required. DUNS and CCR registration are part of the www.Grants.gov registration process. See “Get Registered” at http://grants.gov/applicants/get_registered.jsp.
- ACF will not accept applications via facsimile or email.
- It is to an applicant's advantage to submit their applications at least 24 hours in advance of the application due date and time in order to correct any failures found during the application validation check.
- Electronic submission at www.Grants.gov is two-step process:
  - Submission by the due date and time.
  - Application validation check.
- Electronically submitted applications will not pass the validation check at Grants.gov if the AOR does not have a current CCR registration and electronic signature credentials.
- Read and observe all application submission requirements provided at http://www.grants.gov/applicants/apply_for_grants.jsp.
- Observe the formatting requirements and page limitations provided in the Section IV.2. Formatting
ACF Applications section for electronic applications.

- Carefully read and observe electronic file naming conventions provided in the application submission instructions at http://www.grants.gov/applicants/apply_for_grants.jsp.
- Use only file formats supported by ACF. See Section IV.2. Formatting ACF Applications.
- Additional guidance on the submission of electronic applications can be found at http://www.grants.gov/assets/Organization_Steps_Complete_Registration.pdf.
- If applicants encounter any technical difficulties in using www.Grants.gov, contact the Grants.gov Contact Center at: 1-800-518-4726, or by email at support@grants.gov, to report the problem and obtain assistance. Hours of Operation: 24 hours a day, 7 days a week. The Grants.gov Contact Center is closed on Federal holidays.
- Applicants should retain Grants.gov Contact Center service ticket number(s) as they may be needed for future reference.
- Applicants that submit their applications electronically should retain a hard copy of their application package.
- Contact with the Grants.gov Contact Center prior to the listed due date and time does not ensure acceptance of your application. If difficulties are encountered, the Grants Management Officer listed in Section VII. Agency Contacts will determine whether the submission issues are due to Grants.gov system errors or user error.

Application Validation at www.Grants.gov

The difference between a submission receipt and submission validation is after an applicant submits an application, Grants.gov generates a submission receipt via email and also sets the application status to "Received." This receipt verifies the application has been successfully delivered to the Grants.gov system.

Next, Grants.gov verifies the submission is valid by ensuring it does not contain viruses, the opportunity is still open, and the applicant login and applicant DUNS number match. If the submission is valid, Grants.gov generates a submission validation receipt via email and sets the application status to "Validated."

If the application is not validated, the application status is set to "Rejected." The system sends a rejection email notification to the applicant and the applicant must re-submit the application package. See "What to Expect After Submitting" at www.Grants.gov for more information.

Each time an application is submitted, or resubmitted, via www.Grants.gov, the application will receive a new date and time stamp. Only those applications with on-time date and time stamps that result in a validated application, which are transmitted to ACF, will be acknowledged.

Applicants will be provided with an acknowledgement from www.Grants.gov that the submitted application package has passed, or failed, a series of checks and validations. Applications that are submitted on time that fail the validation check will not be transmitted to ACF and will not be acknowledged.

Request an Exemption from Required Electronic Application Submission

ACF recognizes that some applicants may have limited or no Internet access, and/or limited computer capacity, which may prohibit them from uploading large files to the Internet at www.Grants.gov. To accommodate such applicants, ACF offers an exemption from required electronic submission. The exemption will allow applicants to submit hard copy, paper applications by hand-delivery, applicant courier, overnight/express mail couriers, or by other representatives of the applicant.

To receive an exemption from required electronic application submission, applicants must submit a written request to ACF stating that the applicant qualifies for the exemption for one of two reasons:
• Lack of Internet access or Internet connection, or
• Limited computer capacity that prevents the uploading of large documents (files) to the Internet at www.Grants.gov.

Applicants may request and receive the exemption from required electronic application submission by either:

• Submitting an email request to electronicappexemption@acf.hhs.gov, or
• Sending a written request to the Office of Grants Management Contact listed in Section VII. Agency Contacts in this announcement.

An exemption is applicable to all applications submitted by the applicant organization during the Federal Fiscal Year (FFY) in which it is received. Applicants need only request an exemption once in a FFY. Applicants will need to request a new exemption from required electronic submission for any succeeding FFY.

**Please Note:** electronicappexemption@acf.hhs.gov may be used only to request an exemption from required application submission. All other inquiries must be directed to the appropriate Agency Contact listed in Section VII. of this announcement. Queries other than requests for approval of an exemption to allow submission of an application in paper format submitted to this email address will not be acknowledged or answered.

Exemption requests by email to electronicappexemption@acf.hhs.gov and by postal mail must include:

• Funding Opportunity Announcement Title,
• Funding Opportunity Number (FON),
• The listed Catalog of Federal Domestic Assistance (CFDA) number,
• Name of Applicant Organization and DUNS Number,
• AOR name and contact information,
• Name and contact information of person to be contacted on matters involving the application, and
• The reason for which the applicant is requesting an exemption from electronic application submission. The reason must be either the lack of Internet access or connection, or lack of computer capacity that prevents uploading large documents (files) to the Internet.

Exemption requests must be received by ACF no later than two weeks before the application due date, that is, 14 calendar days prior to the application due date listed in the Overview and in Section IV.3. Submission Dates and Times. If the fourteenth calendar day falls on a weekend or Federal holiday, the due date for receipt of an exemption request will move to the next Federal business day that follows the weekend or Federal holiday.

Applicants may refer to Section VIII. Other Information for a checklist of application requirements that may be used in developing and organizing application materials. Details concerning acknowledgment of received applications are available in Section IV.3. Submission Dates and Times of this announcement.

**Paper Format Application Submission**

An exemption is now required for the submission of paper applications. See "Request an Exemption from Required Electronic Application Submission."

Applicants with exemptions that submit their applications in paper format, by mail or delivery, must submit one original and two copies of the complete application with all attachments. The original and each of the two copies must include all required forms, certifications, assurances, and appendices, be signed by the AOR, and be unbound. The original copy of the application must have original signature(s). See Section IV.6 of this announcement for address information for paper format application submissions.
Applications submitted in paper format must show a DUNS Number. A DUNS Number is a nine-digit number established and assigned by Dun and Bradstreet, Inc. (D&B) to uniquely identify business entities. A DUNS number may be acquired at no cost online at [http://www.dnb.com](http://www.dnb.com). To acquire a DUNS number by phone, contact the D&B Government Customer Response Center: U.S. and U.S Virgin Islands: 1-866-705-5711; Alaska and Puerto Rico: 1-800-234-3867 (Select Option 2, then Option 1). Monday through Friday 7 a.m. to 8 p.m., CST.

As of October 1, 2010, all applicants for Federal grants and cooperative agreements, including those that apply in paper format, are required to have Central Contractor Registration (CCR). CCR registration is also required for organizations that will receive subawards under Federal grants and cooperative agreements. CCR registration may be made online at [www.ccr.gov](http://www.ccr.gov) or by phone at 1-866-606-8220.

CCR registration must be updated annually from the date of the initial registration. CCR registration is required to be active throughout the period of award. Lack of CCR registration will prevent ACF from making an award to a recommended applicant.

There is the possibility of heavy traffic at the CCR website at application due dates. Therefore, applicants are strongly encouraged to register at the CCR well in advance of the application due date. CCR registration must be updated annually. CCR registration must be active and maintained with current information at all times during which an organization has an active award or an application under consideration.

Applicants may refer to Section VIII. Other Information for a checklist of application requirements that may be used in developing and organizing application materials. Details concerning acknowledgment of received applications are available in Section IV.3. Submission Dates and Times in this announcement.

### IV.3. Submission Dates and Times

**Due Date for Applications:** 05/29/2012

**Explanation of Due Dates**

The due date for receipt of applications is listed in the Overview section and in this section. See Section III.3. Application Disqualification Factors.

**Electronic Applications**

The deadline for submission of electronic applications via [www.Grants.gov](http://www.Grants.gov) is 11:59 p.m., ET, on the due date. Electronic applications submitted at 12:00 a.m., ET, on the day after the due date will be considered late and will be disqualified from competitive review and from funding under this announcement.

Applicants are required to submit their applications electronically via [www.Grants.gov](http://www.Grants.gov) unless they received an exemption through the process described in Section IV.2. Request an Exemption from Required Electronic Application Submission.

ACF does not accommodate transmission of applications by email or facsimile.

**Please note:**

Applications submitted to [www.Grants.gov](http://www.Grants.gov) at any time during the open application period, and prior to the
due date and time, that fail the Grants.gov validation check, will not be received at ACF. **These applications will not be acknowledged.** Applications that fail the Grants.gov validation check are not transmitted to ACF though they may have been submitted on time.

Each time an application is submitted via [www.Grants.gov](http://www.Grants.gov), the application will receive a new date and time-stamp. Only those applications with date and time-stamps that result in a validated application, which is transmitted to ACF, will be acknowledged.

### Mailed Paper Format Applications

The deadline for mailed paper applications is 4:30 p.m., ET, on the due date. Mailed paper applications received after the due date and deadline time will be will be considered late and will be disqualified from competitive review and from funding under this announcement.

Paper format application submissions will be disqualified if the applicant organization has not received an exemption through the process described in **Section IV.2. Request an Exemption from Required Electronic Application Submission**.

### Hand-Delivered Paper Format Applications

Applications that are hand-delivered by applicants, applicant couriers, by overnight/express mail couriers, or other representatives of the applicant must be received on, or before, the due date listed in the Overview and in this section. These applications must be delivered between the hours of 8:00 a.m. and 4:30 p.m., ET, Monday through Friday (excluding Federal holidays). Applications should be delivered to the address provided in **Section IV.6. Other Submission Requirements**.

Hand-delivered paper applications received after the due date and deadline time will be considered late and will be disqualified from competitive review and from funding under this announcement.

Hand-delivered paper format application submissions will be disqualified if the applicant organization has not received an exemption through the process described in **Section IV.2. Request an Exemption from Required Electronic Application Submission**.

**No appeals will be considered for applications classified as late under the following circumstances:**

- Applications submitted electronically via [www.Grants.gov](http://www.Grants.gov) are considered late when they are dated and time-stamped after the deadline of 11:59 p.m., ET, on the due date.
- Paper format applications received by mail or hand-delivery after 4:30 p.m., ET, on the due date will be classified as late and will be disqualified.
- Paper format applications received from applicant organizations that were not approved for an exemption from required electronic application submission under the process described in **Section IV.2. Request an Exemption from Required Electronic Submission** will be disqualified.

### Extensions and/or Waiving Due Date and Receipt Time Requirements

ACF may extend an application due date and receipt time when circumstances make it impossible for applicants to submit their applications on time. These events include natural disasters (floods, hurricanes, tornados, etc.), or when there are widespread disruptions of electrical service, or mail service, or in other rare cases. The determination to extend or waive due date and/or receipt time requirements rests with the Grants Management Officer listed as the Office of Grants Management Contact in **Section VII. Agency Contacts**.
Acknowledgement from www.Grants.gov of an electronic application's submission:

Applicants will receive an initial email upon submission of their application to www.Grants.gov. This email will provide a Grants.gov Tracking Number. Applicants should refer to this tracking number in all communication with Grants.gov. The email will also provide a date and time stamp, which serves as the official record of application's submission. The date and time-stamp must reflect a submission time on, or before, 11:59 p.m., ET, on the application due date. Receipt of this email does not indicate that the application is accepted or that is has passed the validation check.

Each time an application is submitted, or resubmitted, via www.Grants.gov, the application will receive a new date and time-stamp. Only those applications with on-time date and time-stamps that result in a validated application, which is transmitted to ACF, will be acknowledged.

Applicants will be provided with an acknowledgement from www.Grants.gov that the submitted application package has passed, or failed, a series of checks and validations. Applications that are submitted on time that fail the validation check will not be transmitted to ACF and will not be acknowledged.

Acknowledgement from ACF of an electronic application's submission:

Applicants will be sent additional email(s) from ACF acknowledging that the application has been retrieved from www.Grants.gov by ACF. Receipt of these emails is not an indication that the application is accepted for competition.

Acknowledgement from ACF of a paper format (hard copy) application's submission:

ACF will not provide acknowledgement of receipt of hard copy application packages submitted via mail or courier services.

IV.4. Intergovernmental Review of Federal Programs

This program is covered under Executive Order (E.O.) 12372, "Intergovernmental Review of Federal Programs," and 45 CFR Part 100, "Intergovernmental Review of Department of Health and Human Services Programs and Activities." Under the Executive Order, States may design their own processes for reviewing and commenting on proposed Federal assistance under covered programs.

Applicants should go to the following URL for the official list of the jurisdictions that have elected to participate in E.O. 12372 http://www.whitehouse.gov/omb/grants_s poc/.

Applicants from participating jurisdictions should contact their SPOC, as soon as possible, to alert them of their prospective applications and to receive instructions on their jurisdiction's procedures. Applicants must submit all required application materials to the SPOC and indicate the date of submission on the Standard Form (SF) 424 at item 19.

Under 45 CFR 100.8(a)(2), a SPOC has 60 days from the application due date to comment on proposed new awards.

SPOC comments may be submitted directly to ACF to: U.S. Department of Health and Human Services, Administration for Children and Families, Office of Grants Management, Division of Discretionary
Entities that meet the eligibility requirements of this announcement are still eligible to apply for a grant even if a State, Territory or Commonwealth, etc., does not have a SPOC or has chosen not to participate in the process. Applicants from non-participating jurisdictions need take no action with regard to E.O. 12372. Applications from Federally-recognized Indian Tribal governments are not subject to E.O. 12372.

**IV.5. Funding Restrictions**

Costs of organized fund raising, including financial campaigns, endowment drives, solicitation of gifts and bequests, and similar expenses incurred solely to raise capital or obtain contributions, are considered unallowable costs under grants or cooperative agreements awarded under this funding opportunity announcement.

Grant awards will not allow reimbursement of pre-award costs.

Construction is not an allowable activity or expenditure under this grant award.

Purchase of real property is not an allowable activity or expenditure under this grant award.

**IV.6. Other Submission Requirements**

Submit paper applications to one of the following addresses. See Section IV.2. Request an Exemption from Required Electronic Application Submission.

**Submission By Mail**

CB Operations Center  
c/o Lux Consulting Group

**Hand Delivery**

CB Operations Center  
c/o Lux Consulting Group  
8405 Colesville Road, Suite 600  
Silver Spring, MD 20910

**Electronic Submission**

For all submissions, see Section IV.3 for information on due dates and times.

**V. Application Review Information**

**V.1. Criteria**

Applications competing for financial assistance will be reviewed and evaluated using the criteria described in this section. The corresponding point values indicate the relative importance placed on each review criterion. Points will be allocated based on the extent to which the application proposal addresses each of the criteria listed. Applicants should address these criteria in their application materials, particularly in the project description and budget justification, as they are the basis upon which competing applications will be judged during the objective review. The required elements of the project description and budget
justification may be found in Section IV.2 of this announcement.

**Objectives and Need for Assistance**

In reviewing the objectives and need for assistance, reviewers will consider the extent to which:

1. The application demonstrates an understanding of the goals and objectives of the relevant legislation and this FOA. The proposed project will contribute to achieving those legislative goals and objectives and the goals stated in this FOA.

2. The application presents a clear description of the proposed project, including a clear statement of the goals (i.e., the intended end products of an effective project) and objectives (i.e., measurable steps for reaching these goals) of the proposed project.

3. The application demonstrates a thorough understanding of the need for child welfare agency(ies) and education agency(ies) to improve educational stability and permanency outcomes for middle- to high-school aged children in child welfare.

4. The application clearly defines the geographic and demographic characteristics of the applicant's service population and the target population to be affected by the implementation of this grant.

5. The application demonstrates a thorough understanding of the need to assess the characteristics of the target population, including age, race, ethnicity, sibling status, and connection to the community; the service needs of this population and community; and the status of existing services for the target population.

6. The proposed target population meets the requirements described in this FOA.

**Approach**

In reviewing the approach, reviewers will consider the extent to which:

1. The application provides a reasonable timeline for implementing the proposed project, including major milestones and target dates. The application describes the factors that could speed or hinder project implementation and explains how these factors would be managed.

2. A well-defined logic model, illustrated through a graphic model and evident throughout the narrative, guides the proposed project. The logic model demonstrates strong links between proposed inputs and activities and intended short- and long-term outcomes.

3. There is a sound and reasonable management plan for achieving the objectives of the proposed project on time and within budget, including clearly defined responsibilities, timeliness, and milestones for accomplishing project tasks and ensuring quality. The proposed project will provide for the development and implementation of a comprehensive multi-faceted plan that impacts the target population for this FOA.

4. The proposed project is culturally responsive to the target population.

5. The design of the proposed project reflects up-to-date knowledge from the research and literature on known effective practices and builds on current theory, research, evaluation data, and best practices. The project is likely to yield findings or results about effective strategies and contribute to and promote evaluation research and evidence-based practices that may be used to guide replication or testing in other settings.

6. The proposed project would develop into a model site for other jurisdictions to look to in developing the ability to implement comprehensive, multi-faceted plans as an ongoing part of agency functions. The project would develop products and provide information on strategies used and the outcomes achieved that would support improvements of practices in the field. The schedule for developing these products is appropriate in scope and budget.

7. The applicant presents a detailed and sound dissemination plan, addressing the dissemination factors described in this FOA, for strategically and effectively disseminating project information,
products, and findings.
8. The proposed project would be integrated into the grantee's ongoing practices with the goal of continuous data-informed protocols that will improve outcome for the target population.
9. There is a sound sustainability plan to ensure continuing collaboration and that the project's critical components will become embedded in the child welfare agency and/or education agency's policies and procedures after the period of Federal funding under this FOA.
10. If the primary applicant responsible for administering the grant is not the public child welfare agency, there is documentation of a strong partnership with the public child welfare agency(ies) with responsibility for administering the child welfare program(s) in the targeted geographical area(s), as well as the education agency(ies) serving the targeted child welfare population and the courts having jurisdiction over the targeted child welfare population and other public/private agencies involved in the proposed work, as appropriate. This documentation includes the following:
   - Letter(s) of commitment or MOU(s) from the relevant public child welfare agency(ies) and education agency(ies) or local school districts, which describe, in detail, the roles and responsibilities of the project partners;
   - Evidence that the relevant public child welfare agency(ies) and education agency(ies) fully understand, are fully committed to the proposed project, and demonstrate a willingness to be fully engaged in the activities that are described in the application;
   - Evidence that the relevant public child welfare agency(ies) and education agency(ies) will designate key staff to follow through on these commitments, regardless of changes in administration, economic status, or other foreseeable factors; and
   - Any other evidence that would demonstrate the full commitment of the relevant public child welfare agency(ies) and education agency(ies) to making the proposed project a success.

### Evaluation

<table>
<thead>
<tr>
<th>Evaluation</th>
<th>Maximum Points: 20</th>
</tr>
</thead>
<tbody>
<tr>
<td>In reviewing the evaluation plan, reviewers will consider the extent to which:</td>
<td></td>
</tr>
<tr>
<td>1. The applicant proposes a clear and convincing plan for evaluating the project and satisfies the requirements for the evaluation published in this FOA. The methods of evaluation are feasible, comprehensive, and appropriate to the goals, objectives, and context of the project. The evaluation plan is appropriate in scope and budget.</td>
<td></td>
</tr>
<tr>
<td>2. The project's evaluation plan measures the effectiveness of project strategies on achieving project goals and objectives.</td>
<td></td>
</tr>
<tr>
<td>3. The methods of evaluation include the use of strong measures that are clearly related to the intended outcomes of the program. The evaluation includes measures of short- and long-term outcomes, as appropriate, in addition to measures of inputs and outputs.</td>
<td></td>
</tr>
<tr>
<td>4. There is a sound plan for securing informed consent and implementing an institutional review board (IRB) review, if applicable.</td>
<td></td>
</tr>
<tr>
<td>5. The applicant either demonstrates that they have the in-house capacity to conduct an objective and rigorous evaluation of the project or presents a sound plan for contracting with a third-party evaluator. The proposed evaluator has sufficient experience with research and/or evaluation, understands the population of interest, and demonstrates the necessary independence from the project to assure objectivity.</td>
<td></td>
</tr>
<tr>
<td>6. The application provides an appropriate, feasible, and realistic plan for using evaluation findings to produce documentation of project activities and results. The evaluation plan includes performance feedback and periodic assessment of program progress that can be used to modify the program, as necessary, and serve as a basis for program adjustments.</td>
<td></td>
</tr>
</tbody>
</table>

### Organizational Capacity

<table>
<thead>
<tr>
<th>Organizational Capacity</th>
<th>Maximum Points: 20</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
</tr>
</tbody>
</table>
In reviewing the organizational profiles, reviewers will consider the extent to which:

1. The applicant's organization and any partnering organizations collectively have relevant experience and expertise with administration, development, implementation, management, and evaluation of the proposed infrastructure building plan. Each participating organization (including partners and/or subcontractors) possesses the organizational capability to fulfill its assigned roles and functions effectively.

2. The proposed project director and key project staff demonstrate sufficient relevant knowledge, experience, and capabilities (e.g., resume) to effectively institute and manage a project of this size, scope, and complexity. The role, responsibilities, and time commitments of each proposed project staff position, including consultants, subcontractors, and/or partners, is clearly defined (e.g., job description) and appropriate to the successful implementation of the proposed project.

3. The applicant clearly defines the role and responsibilities of the lead agency. The plan clearly describes the effective management and coordination of activities carried out by any partners, subcontractors, and consultants. The lead agency has sufficient expertise in working with partner agencies to implement the proposed project.

4. There would be a mutually beneficial relationship between the proposed project and other work planned, anticipated, or underway with Federal assistance by the applicant.

**Budget and Budget Justification**

<table>
<thead>
<tr>
<th>Maximum Points: 5</th>
</tr>
</thead>
</table>

In reviewing the budget and budget justification, reviewers will consider the extent to which:

1. There is a detailed narrative budget justification for each year of the project. The costs of the proposed project are reasonable, in view of the activities to be conducted and expected results and benefits. The budget includes the costs associated with travel for two participants to attend grantee meetings in Washington, DC.

2. The applicant's fiscal controls and accounting procedures would ensure prudent use, proper and timely disbursement, and accurate accounting of funds received under this FOA.

**V.2. Review and Selection Process**

No grant award will be made under this announcement on the basis of an incomplete application. No grant award will be made to an applicant that does not have an active CCR registration (www.ccr.gov or 1-866-606-8220).

**Initial ACF Screening**

Each application will be screened to determine whether it meets one of the following disqualification criteria as described in *Section III.3. Application Disqualification Factors*:

- Applications that are designated as late according to *Section IV.3. Submission Dates and Times*,
- Applications that are submitted in paper format without prior approval of an exemption from required electronic submission (Section IV.2. Request an Exemption from Required Electronic Application Submission), or
- Applications with requests that exceed the award ceiling stated in *Section II. Award Information*.

For those applications that have been disqualified under the initial ACF screening, notice will be provided by postal mail or by email. See *Section IV.3. Explanation of Due Dates* for information on Grants.gov's and ACF's acknowledgment of received applications.

**Objective Review and Results**
Applications competing for financial assistance will be reviewed and evaluated by objective review panels using the criteria described in Section V.1. Criteria of this announcement. Each panel is composed of experts with knowledge and experience in the area under review. Generally, review panels include three reviewers and one chairperson.

Results of the competitive objective review are taken into consideration by ACF in the selection of projects for funding; however, objective review scores and rankings are not binding. They are one element in the decision-making process.

ACF may elect not to fund applicants with management or financial problems that would indicate an inability to successfully complete the proposed project. Applications may be funded in whole or in part. Successful applicants may be funded at an amount lower than that requested. ACF reserves the right to consider preferences to fund organizations serving emerging, unserved, or under-served populations, including those populations located in pockets of poverty. ACF will also consider the geographic distribution of Federal funds in its award decisions.

Please refer to Section IV.2. of this announcement for information on non-Federal reviewers in the review process.

Approved but Unfunded Applications

Applications recommended for approval that were not funded under the competition because of the lack of available funds may be held over by ACF and reconsidered in a subsequent review cycle if a future competition under the program area is planned. These applications will be held over for a period of up to one year and will be recompeted for funding with all other competing applications in the next available review cycle. For those applications that have been deemed as approved but unfunded, notice will be given of such determination by postal mail.

V.3. Anticipated Announcement and Award Dates

Applications will be reviewed during the Summer 2012. Grant awards will have a start date no later than September 28, 2012.

VI. Award Administration Information

VI.1. Award Notices

Successful applicants will be notified through the issuance of a Notice of Award (NoA) that sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, the non-Federal share to be provided (if applicable), and the total project period for which support is contemplated. The NoA will be signed by the Grants Officer and transmitted via postal mail or email. Following the finalization of funding decisions, organizations whose applications will not be funded will be notified by letter signed by the cognizant Program Office head. Any other correspondence that announces to a Principal Investigator, or a Project Director, that an application was selected is not an authorization to begin performance.

Project costs that are incurred prior to the receipt of the NoA are at the recipient's risk and may be reimbursed only to the extent that they are considered allowable as approved pre-award costs. Information on allowable pre-award costs and the time period under which they may be incurred is available in Section IV.5. Funding Restrictions.
VI.2. Administrative and National Policy Requirements

Awards issued under this announcement are subject to the uniform administrative requirements and cost principles of 45 C.F.R. Part 74 (Awards And Subawards To Institutions Of Higher Education, Hospitals, Other Nonprofit Organizations, And Commercial Organizations) or 45 C.F.R. Part 92 (Grants And Cooperative Agreements To State, Local, And Tribal Governments). The Code of Federal Regulations (C.F.R.) is available at [http://www.gpo.gov](http://www.gpo.gov).

An application funded with the release of Federal funds through a grant award does not constitute, or imply, compliance with Federal regulations. Funded organizations are responsible for ensuring that their activities comply with all applicable Federal regulations.

Prohibition Against Profit

Grantees are subject to the limitations set forth in 45 C.F.R. Part 74, Subpart E-Special Provisions for Awards to Commercial Organizations (45 C.F.R. Part 74.81_Prohibition against profit), which states that, "... no HHS funds may be paid as profit to any recipient even if the recipient is a commercial organization. Profit is any amount in excess of allowable direct and indirect costs."

Equal Treatment for Faith-Based Organizations

Grantees are also subject to the requirements of 45 C.F.R. Part 87.1(c), Equal Treatment for Faith-Based Organizations, which says, "Organizations that receive direct financial assistance from the [Health and Human Services] Department under any Department program may not engage in inherently religious activities such as religious instruction, worship, or proselytization as part of the programs or services funded with direct financial assistance from the Department." Therefore, organizations must take steps to completely separate the presentation of any program with religious content from the presentation of the Federally funded program by time or location in such a way that it is clear that the two programs are separate and distinct. If separating the two programs by time but presenting them in the same location, one program must completely end before the other program begins.

A faith-based organization receiving HHS funds retains its independence from Federal, State, and local governments, and may continue to carry out its mission, including the definition, practice, and expression of its religious beliefs. For example, a faith-based organization may use space in its facilities to provide secular programs or services funded with Federal funds without removing religious art, icons, scriptures, or other religious symbols. In addition, a faith-based organization that receives Federal funds retains its authority over its internal governance, and it may retain religious terms in its organization's name, select its board members on a religious basis, and include religious references in its organization's mission statements and other governing documents in accordance with all program requirements, statutes, and other applicable requirements governing the conduct of HHS funded activities.

Regulations pertaining to the Equal Treatment for Faith-Based Organizations, which includes the prohibition against Federal funding of inherently religious activities, Understanding the Regulations Related to the Faith-Based and Neighborhood Partnerships Initiative" are available at [http://www.hhs.gov/partnerships/about/regulations/](http://www.hhs.gov/partnerships/about/regulations/). Additional information, resources, and tools for faith-based organizations is available through The Center for Faith-based and Neighborhood Partnerships website at [http://www.hhs.gov/partnerships/index.html](http://www.hhs.gov/partnerships/index.html) and at the [Administration for Children & Families: Toolkit for Faith-based and Community Organizations](http://www.acf.hhs.gov/toolkit/faith-based-community).

Award Term and Condition under the Trafficking Victims Protection Act of 2000
Awards issued under this announcement are subject to the requirements of Section 106 (g) of the Trafficking Victims Protection Act of 2000, as amended (22 U.S.C. § 7104). For the full text of the award term, go to [http://www.acf.hhs.gov/grants/award_term.html](http://www.acf.hhs.gov/grants/award_term.html). If you are unable to access this link, please contact the Grants Management Contact identified in Section VII. Agency Contacts of this announcement to obtain a copy of the term.

**Requirements for Drug-Free Workplace**

The Drug-Free Workplace Act of 1988 (41 U.S.C. § 701 et seq.) requires that all organizations receiving grants from any Federal agency agree to maintain a drug-free workplace. By signing the application, the Authorizing Official agrees that the grantee will provide a drug-free workplace and will comply with the requirement to notify ACF if an employee is convicted of violating a criminal drug statute. Failure to comply with these requirements may be cause for debarment. Government wide requirements for Drug-Free Workplace for Financial Assistance are found in 2 C.F.R. part 182; HHS implementing regulations are set forth in 2 C.F.R. part 382.400. All recipients of ACF grant funds must comply with the requirements in Subpart B - Requirements for Recipients Other Than Individuals, 2 C.F.R. part 382.225. The rule is available at [Requirements for Drug-Free Workplace](http://www.acf.hhs.gov/grants/grants_resources.html).

**Debarment and Suspension**

HHS regulations published in 2 CFR part 376 implement the governmentwide debarment and suspension system guidance (2 CFR part 180) for HHS’ non-procurement programs and activities. "Non-procurement transactions" include, among other things, grants, cooperative agreements, scholarships, fellowships, and loans. ACF implements the HHS Debarment and Suspension regulations as a term and condition of award. Grantees may decide the method and frequency by which this determination is made and may check the Excluded Parties List System (EPLS) located at [https://www.epls.gov/](https://www.epls.gov/), although checking the EPLS is not required. More information is available at [http://www.acf.hhs.gov/grants/grants_resources.html](http://www.acf.hhs.gov/grants/grants_resources.html).

**Pro-Children Act**

The Pro-Children Act of 2001, 42 U.S.C. §§ 7181 through 7184, imposes restrictions on smoking in facilities where federally funded children's services are provided. HHS grants are subject to these requirements only if they meet the Act's specified coverage. The Act specifies that smoking is prohibited in any indoor facility (owned, leased, or contracted for) used for the routine or regular provision of kindergarten, elementary, or secondary education or library services to children under the age of 18. In addition, smoking is prohibited in any indoor facility or portion of a facility (owned, leased, or contracted for) used for the routine or regular provision of federally funded health care, day care, or early childhood development, including Head Start services to children under the age of 18. The statutory prohibition also applies if such facilities are constructed, operated, or maintained with Federal funds. The statute does not apply to children's services provided in private residences, facilities funded solely by Medicare or Medicaid funds, portions of facilities used for inpatient drug or alcohol treatment, or facilities where WIC coupons are redeemed. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 per violation and/or the imposition of an administrative compliance order on the responsible entity.

**HHS Grants Policy Statement**

The HHS Grants Policy Statement (HHS GPS) is the Department of Health and Human Services' single policy guide for discretionary grants and cooperative agreements. ACF grant awards are subject to the requirements of the HHS GPS, which covers basic grants processes, standard terms and conditions, and points of contact, as well as important agency-specific requirements. Appendices to the HHS GPS include
a glossary of terms and a list of standard abbreviations for ease of reference. The general terms and conditions in the HHS GPS will apply as indicated unless there are statutory, regulatory, or award-specific requirements to the contrary that are specified in the Notice of Award (NoA). The HHS GPS is available at http://www.acf.hhs.gov/grants/grants_related.html.

Other Administrative and National Policy Requirements

VI.3. Reporting

Grantees under this funding opportunity announcement will be required to submit performance progress and financial reports periodically throughout the project period. The frequency of required reporting is listed later in this section. Final reports may be submitted in hard copy to the Grants Management Office Contact listed in Section VII. Agency Contacts of this announcement. Instructions on submission of reports electronically will be provided with award documents.

Performance Progress Reports (PPR)

ACF grantees are required to submit the SF-PPR Cover Page. ACF Program Offices that utilize reporting forms or formats in addition to, or instead of, the SF-PPR have listed the reporting requirements later in this section.

Grant award documents will inform grantees of the appropriate performance progress report form or format to use. Grantees should consult their award documents to determine the appropriate performance progress report format required under their award. Performance progress reports are due 30 days after the end of the reporting period.

Final program performance reports are due 90 days after the close of the project period. The SF-PPR may be found at http://www.acf.hhs.gov/grants/grants_resources.html.

Federal Financial Reports (FFR)

As of February 1, 2011, HHS began the transition from use of the SF-269, Financial Status Report (Short Form or Long Form) to the use of the SF-425 Federal Financial Report for expenditure reporting. SF-269s will no longer be accepted for expenditure reports due after that date. If an SF-269 is submitted, the ACF will return it and require the recipient to complete the SF-425.

The transition strategy is allowing individual HHS Operating Divisions to select--from a limited number of options--the approach that best fits their programs and business process. This transition does not affect completion or submission of the cash reporting to the HHS Division of Payment Management System (PMS). The primary features of this transition for recipients are that OPDIVs that previously required electronic submission of the SF-269 will receive the SF-425 expenditure reports electronically and, until further notice, OPDIVs that have been receiving expenditure reports in hard copy will continue to do so.

All expenditure reports will be due on one of the standard due dates by which cash reporting is required to be submitted to PMS or at the end of a calendar quarter as determined by the Operating Division. As a result, a recipient that receives awards from more than one OPDIV may be subject to more than one approach, but will not be required to change its current means of submission or be subjected to more than eight standard due dates.

Beginning with budget periods which end from January 1 - March 31, 2011, and for all budget periods
thereafter, all affected ACF grantees will be required to submit an SF-425 report as frequently as is required in the terms and conditions of their award using due dates for reports to PMS.

**For budget periods ending in the months of:**  
The **FFR (SF-425) is due to ACF on:**

<table>
<thead>
<tr>
<th>Period</th>
<th>Due Date</th>

<td>April 30</td>
</tr>
<tr>
<td>April 01 through June 30</td>
<td>July 30</td>
</tr>
<tr>
<td>July 01 through September 30</td>
<td>October 30</td>
</tr>
<tr>
<td>October 01 through December 31</td>
<td>January 30</td>
</tr>
</tbody>
</table>

Fillable versions of the SF-425 form in Adobe PDF and MS-Excel formats, along with instructions, are available at [http://www.whitehouse.gov/omb/grants_forms](http://www.whitehouse.gov/omb/grants_forms), [www.forms.gov](http://www.forms.gov), and on the [ACF Funding Opportunity Website Forms](http://www.acf.hhs.gov/grants/msg_sf425.html) page.

Further instructions will be provided, as necessary, with award terms and conditions that will address specific reporting periods and due dates on an award-by-award basis. Additional information on frequency of reporting is available on the ACF Funding Opportunities website at [http://www.acf.hhs.gov/grants/msg_sf425.html](http://www.acf.hhs.gov/grants/msg_sf425.html).

For planning purposes, reporting periods for awards made under this announcement are as follows:

- **Program Progress Reports:** Semi-Annually
- **Financial Reports:** Semi-Annually

Awards issued as a result of this funding opportunity may be subject to the Transparency Act subaward and executive compensation reporting requirements of 2 C.F.R. Part 170. See ACF's [Award Term for Federal Financial Accountability and Transparency Act (FFATA) Subaward and Executive Compensation Reporting Requirement](http://www.acf.hhs.gov/grants/msg_sf425.html) implementing this requirement and additional award applicability information.

**SF-428 Tangible Property Report and SF-429 Real Property Status Report**

As of April 1, 2012, the Administration for Children and Families will begin requiring the use of the SF-428 (Tangible Personal Property Form) as well as the SF-429 (Real Property Status Report).

The SF-428 is a standard form to be used by awarding agencies to collect information related to tangible personal property (equipment and supplies) when required by a Federal financial assistance award. The form consists of the cover sheet (SF-428) and three attachments to be used as required: Annual Report; Final (Award Closeout) Report and a Disposition Request/Report. A Supplemental Sheet, SF-428S, may be used to provide detailed individual item information.

The SF-429 is a standard report to be used by recipients of Federal financial assistance to report real property status (Attachment A) or to request agency instructions on real property (Attachments B, C) that was/will be provided as Government Furnished Property (GFP) or acquired (i.e., purchased or constructed) in whole or in part under a Federal financial assistance award (i.e., grant, cooperative agreement, etc.). This includes real property that was improved using Federal funds and real property that was donated to a Federal project in the form of a match or cost share donation. This report is to be used for awards that establish a Federal Interest on real property.
Beginning with budget periods ending September 30, 2012 and for all budget periods thereafter, all ACF grantees will be required to submit (as applicable) an SF-428 and SF-429 report as frequently as is required in the terms and conditions of their award.

The forms are available at http://www.whitehouse.gov/omb/grants_forms.
