The Administration for Children and Families solicits applications from public or private non-profit organizations, including faith-based organizations or for-profit organizations that wish to compete for funds that are available to provide Early Head Start services to infants, toddlers and pregnant women residing in Sumter County, South Carolina. The intent of this announcement is to provide for the continuation of services as provided by the current grantee, Sumter County School District 17.

Funds in the amount of $1,185,369 annually will be available to provide Early Head Start program services to eligible infants, toddlers and pregnant women. This dollar amount is a result of the Base Funding of $1,156,458 plus $28,911 in Technical Assistance (TA) funding. The current grantee is funded for a total enrollment of 99 infants, toddlers and pregnant women.

Eligibility is limited to public or private non-profit organizations, including faith-based organizations or for-profit organizations that can provide Early Head Start services to infants, toddlers and pregnant women residing in the Sumter County, South Carolina.

I. Funding Opportunity Description

Statutory Authority
The Head Start program is authorized by the Head Start Act, 42 U.S.C § 9831 et seq.

Description

Program Background and Purpose
Early Head Start programs must provide directly or through referral, early, continuous, intensive and comprehensive child development and family support services that will enhance the physical, social, emotional, and intellectual development of participating children, support parents' efforts to fulfill their parental roles; and help parents move toward self-sufficiency.

Given the need for continuity of care for pregnant women, and infant and toddler age children, the Office of Head Start anticipates that applicants will propose serving children in a full-year model. The Office of Head Start expects that applicants requesting to implement a full-year model will propose per child costs that will, in most circumstances, be higher than the costs needed to provide part-year services. It is expected that applicants, based on community and family need, will select program options that best meet the changing needs of families over the time they are in the program. As family needs and circumstances change over time a variety of program options make it more likely that the applicant will meet those changing needs of families served.
Programs providing Early Head Start services will:

- Provide high quality early education services that promote the physical, social, emotional, cognitive and language development of young children and families during pregnancy, upon birth, and during the early years;
- Provide services through appropriate program options: center based, home based, family child care, combination option, or with the approval of the Office of Head Start, locally designed option;
- Assure continuity of services and smooth transitions between program options when the needs of families change, such as when children are enrolled in full day options with child care subsidies and families lose subsidies due to job loss;
- Assist enrolled pregnant women to access comprehensive prenatal and postpartum care, through referrals;
- Provide pregnant women and other family members, as appropriate, with prenatal education on fetal development;
- Provide information on the benefits of breast feeding to all pregnant and nursing mothers;
- Provide arrangements for nursing mothers who choose to breast feed in center-based programs;
- Provide services in a culturally and linguistically responsive manner to support the home environment of the child;
- Provide early opportunities for infants and toddlers to grow and develop in warm, nurturing and inclusive environments;
- Recruit, train and supervise high quality staff to ensure the kind of warm and continuous relationships between caregivers and children that are crucial to learning and development for infants and toddlers;
- Provide professional development plans for each staff member to ensure that each staff person maintains qualifications for his/her position, including meeting all requirements for staff working with infants and toddlers (Head Start Act Sections 645A(h)(1) and (2);
- Ensure that the level of services provided to families responds to their needs and circumstances; including appropriate screening and referral for children with documented behavioral problems;
- Ensure that services provided meet the needs of children with disabilities and their families, including procedures to identify such children, and plans to coordinate with programs providing services as described in Section 645A(b)(11) of the Head Start Act.
- Ensure parent involvement in policy and decision making;
- Provide comprehensive health and mental health services for children and pregnant women, including helping the family to identify and access a medical home to assure ongoing care;
- Provide parent education that supports healthy parent and child relationships; including working with fathers;
- Ensure formal linkages with other agencies in the community providing services to pregnant women, infants and toddlers, including local Head Start programs;
- Support transition planning with families that ensures each pregnant woman and child experiences smooth transitions into Early Head Start and from Early Head Start to Head Start or other preschool programs.

Head Start grantees must, unless a waiver is granted, contribute 20 percent of the total cost of the program from non-federal funds. No more than 15 percent of total costs may be for program administration. An HHS official may grant a waiver of the 15 percent limitation on allowable costs for developing and administering a Head Start program and approve a higher percentage for a specific period of time not to exceed twelve months. The recipient of funding under this announcement will be subject to Head Start regulation 45 C.F.R. Parts 1301-1310.

Head Start is administered by the Administration for Children and Families, one of the principal components of the U.S. Department of Health and Human Services. Since its beginning in 1965, Head Start has served more than 27 million children and their families. Head Start, in FY 2009, served 904,153 children, of whom 66,000 were served in Early Head Start programs. There are approximately 1,600 Head
Eligible Participants

Early Head Start provides services for predominantly low-income pregnant women and children from birth to three years of age. Families must either be below the poverty line or receiving public assistance to be income eligible for Early Head Start. In addition, homeless children and children in foster care are categorically eligible for Head Start. Head Start regulations, however, permit up to 10 percent of enrolled children and pregnant women to be from families that do not meet these low-income criteria. (NOTE: Please see Section 645(a) of the Head Start Act for a complete discussion of Early Head Start eligibility. It is not expected, however, given the relatively low Early Head Start participation rates, that the provisions of Section 645(a)(1)(B) regarding serving up to 35% of a program's enrollment from families with incomes between 100-130% of poverty would apply for this announcement).

Head Start also requires that a minimum of 10 percent of children actually enrolled by the Head Start agency and delegates be children with disabilities unless a waiver is granted.

Priority Area

Early Head Start Replacement Grantee: Sumter County, South Carolina

Description

The Administration for Children and Families solicits applications from public or private non-profit organizations, including faith-based organizations or for-profit organizations that wish to compete for funds that are available to provide Early Head Start services to infants, toddlers and pregnant women residing in Sumter County, South Carolina. The intent of this announcement is to provide for the continuation of services as provided by the current grantee, Sumter County School District 17.

Funds in the amount of $1,185,369 annually will be available to provide Early Head Start program services to eligible infants, toddlers and pregnant women. This dollar amount is a result of the Base Funding of $1,156,458 plus $28,911 in Technical Assistance (TA) funding. The current grantee is funded for a total enrollment of 99 children and families.

Early Head Start regulations allow for a variety of program options and designs. Applicants should propose a design or designs that best address the needs of the proposed service area. Applicants have flexibility in determining the appropriate number of children to be served by the various program options (center-based, home-based, or combination) and program designs (hours per day, days per week, weeks per year).

Applicants should also consider combining Head Start funds with resources from other early childhood programs or funding streams, including State, local and private sector funding for child care, pre-kindergarten and special education services.

Interested applicants must call the OHS Operations Center at (866) 796-1591 to receive pre-application materials and additional information.

Additional Information on Awards:
Awards made under this announcement are subject to the availability of Federal funds.

Until the Designation Renewal System (DRS) required in section 641 (c) of the Head Start Act, 42 U.S.C. § 9836 (c) is established, Head Start grantees will be funded for indefinite project periods with 12-month budget periods. After the establishment of the DRS, Head Start grantees will be transitioned to five year grants. After the DRS becomes operational, Head Start grantees will be receiving five year grants, and grantees found by ACF to be operating programs that are not high-quality and comprehensive Head Start programs will be required to compete for further funding.

Please see Section IV.5 Funding Restrictions for any limitations on the use of grant funds awarded under this announcement.

III. Eligibility Information

III.1. Eligible Applicants

Eligible applicants are any public or private nonprofit agency, including community-based and faith-based organizations, or for-profit agency, within a community, pursuant to the Head Start Act, 42 U.S.C. § 9836(a)(1).

Eligibility is limited to public or private non-profit organizations, including faith-based organizations or for-profit organizations in the recruitment area, that can provide Early Head Start services to children and families residing in Sumter County, South Carolina.

Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this announcement.

Faith-based and community organizations that meet eligibility requirements are eligible to receive awards under this funding opportunity announcement.

See "Legal Status of Applicant Entity" in Section IV.2 for documentation required to support eligibility.

III.2. Cost Sharing or Matching

Cost Sharing / Matching Requirement: Yes

Grantees are required to meet a non-Federal share of the project cost, in accordance with Section 640(b) of the Head Start Act, 42 U.S.C. § 9835 (b).

Grantees must provide at least 20 percent of the total approved cost of the project. The total approved cost of the project is the sum of the ACF (Federal) share and the non-Federal share. The non-Federal share may be met by cash or in-kind contributions, although applicants are encouraged to meet their match requirements through cash contributions. For example, in order to meet the match requirements, a project requesting $1,185,369.00 in ACF (Federal) funds must provide a non-Federal share of the approved total project cost of at least $296,342.00, which is 20 percent of total approved project cost of $1,481,711.00. Grantees will be held accountable for commitments of non-Federal resources even if they exceed the amount of the required match. Failure to provide the required amount will result in the disallowance of Federal funds. A lack of supporting documentation at the time of application submission will not exclude...
the application from competitive review.

To receive a waiver or a reduction in the required non-Federal share, the applicant must provide ACF with written documentation of need. This request must identify which of the five waiver criteria found at Section 640(b)(1-5) of the Head Start Act it believes to be relevant. It may be submitted with the grant proposal document, or during the budget negotiation period. Approval of the waiver request cannot be assumed by the applicant without written notice from ACF. In light of the current economic crisis ACF will be receptive to reasonable arguments for such waivers.

Matching requirements (including in-kind contributions) of less than $200,000 (up to $199,999) are waived under grants made to the governments of American Samoa, Guam, the U.S. Virgin Islands, and the Commonwealth of the Northern Marianas Islands (other than those consolidated under other provisions of 48 U.S.C. 1469) pursuant to 48 U.S.C. 1469a(d). This waiver applies whether the matching required under the grant equals or exceeds $200,000.

Non-Federal resources will be evaluated under criteria found in Section V.1. of this announcement.

III.3. Other

Disqualification Factors
Applications with requests that exceed the ceiling on the amount of individual awards as stated in Section II. Award Information, will be deemed non-responsive and will not be considered for competitive review or funding under this announcement.

Applications that fail to satisfy the due date and time deadline requirements stated in Section IV.3. Submission Dates and Times, will be deemed non-responsive and will not be considered for competitive review or funding under this announcement.

See Section IV.3. Submission Dates and Times for disqualification information specific to electronically-submitted applications:

- Electronically-submitted applications that do not receive a date/time-stamp email indicating application submission on or before 4:30 p.m., eastern time, on the due date, will be disqualified and will not be considered for competitive review or funding under this announcement.

- Electronically-submitted applications that fail the checks and validations at www.Grants.gov because the Authorized Organization Representative (AOR) does not have a current registration at the Central Contractor Registry (CCR) at the time of application submission will be disqualified and will not be considered for competitive review or funding under this announcement.

**Additional Assurances and Certifications**

The Pro-Children Act of 2001, 42 U.S.C. 7181 through 7184, imposes restrictions on smoking in facilities where federally funded children's services are provided. HHS grants are subject to these requirements only if they meet the Act's specified coverage. The Act specifies that smoking is prohibited in any indoor facility (owned, leased, or contracted for) used for the routine or regular provision of kindergarten, elementary, or secondary education or library services to children under the age of 18. In addition, smoking is prohibited in any indoor facility or portion of a facility (owned, leased, or contracted for) used for the routine or regular provision of federally funded health care, day care, or early childhood
development, including Head Start services to children under the age of 18. The statutory prohibition also applies if such facilities are constructed, operated, or maintained with Federal funds. The statute does not apply to children's services provided in private residences, facilities funded solely by Medicare or Medicaid funds, portions of facilities used for inpatient drug or alcohol treatment, or facilities where WIC coupons are redeemed. Failure to comply with the provisions of the law may result in the imposition of a civil monetary penalty of up to $1,000 per violation and/or the imposition of an administrative compliance order on the responsible entity.

The Drug-Free Workplace Act of 1988, 42 U.S.C. 701 et seq., requires that all organizations receiving grants from any Federal agency agree to maintain a drug-free workplace. The recipient must notify the awarding office if an employee of the recipient is convicted of violating a criminal drug statute. Failure to comply with these requirements may be cause for debarment. HHS implementing regulations are set forth in 45 C.F.R. part 82, "Governmentwide Requirements for Drug-Free Workplace (Financial Assistance)."

By signing and submitting the application, applicants are making the appropriate certification of their compliance with all Federal statutes relating to nondiscrimination.

Additional information on certifications and assurances may be found in the HHS Grants Policy Statement at: [http://www.acf.hhs.gov/grants/notices.html#policy](http://www.acf.hhs.gov/grants/notices.html#policy).

**Non-Federal Reviewers**

Since ACF will be using non-Federal reviewers in the review process, applicants have the option of omitting from the application copies (not the original) specific salary rates or amounts for individuals specified in the application budget as well as Social Security Numbers, if otherwise required for individuals. The copies may include summary salary information. If applicants are submitting their application electronically, ACF will omit the same specific salary rate information from copies made for use during the review and selection process.

**DUNS Number and CCR Registration Requirements**

**DUNS Number Requirement**

All applicants and sub-recipients must have a DUNS number (Data Universal Numbering System) at the time of application in order to be considered for a grant or cooperative agreement. A DUNS number is required whether an applicant is submitting a paper application or using the Government-wide electronic portal, [www.Grants.gov](http://www.Grants.gov). A DUNS number is required for every application for a new award or renewal/continuation of an award, including applications or plans under formula, entitlement, and block grant programs. A DUNS number may be acquired at no cost online at [http://fedgov.dnb.com/webform](http://fedgov.dnb.com/webform). To acquire a DUNS number by phone, contact the D&B Government Customer Response Center:

- U.S. and U.S Virgin Islands: 1-866-705-5711
- Alaska and Puerto Rico: 1-800-234-3867 (Select Option 2, then Option 1)
- Monday - Friday 7 a.m. to 8 p.m., c.s.t.

The process to request a D-U-N-S® Number by telephone takes between 5 and 10 minutes.

**Central Contractor Registration (CCR) Requirement**

Effective October 1, 2010, HHS requires all entities that plan to apply for and ultimately receive Federal
grant funds from any HHS Operating/Staff Division (OPDIV) or receive subawards directly from recipients of those grant funds to:

- Be registered in the CCR prior to submitting an application of plan;
- Maintain an active CCR registration with current information at all times during which it has an active award or an application or plan under consideration by an OPDIV; and
- Provide its DUNS number in each application or plan it submits to the OPDIV.

An award cannot be made until an applicant has complied with these requirements. At the time an award is ready to be made, if the intended recipient has not complied with these requirements, the OPDIV:

- May determine that the applicant is not qualified to receive an award; and
- May use that determination as a basis for making an award to another applicant.

Additionally, all first-tier subaward recipients (i.e., direct subrecipient) must have a DUNS number at the time the subaward is made.

CCR registration may be made online at [www.ccr.gov](http://www.ccr.gov) or by phone at 1-866-606-8220.

**Definitions:**

**Central Contractor Registration (CCR):** The Federal registrant database and repository into which an entity must provide information required for the conduct of business as a recipient. CCR, managed by the General Services Administration, collects, validates, stores, and disseminates data in support of agency financial assistance missions.

**Data Universal Numbering System (DUNS) Number:** The nine-digit, or thirteen-digit (DUNS + 4), number established and assigned by Dun and Bradstreet, Inc. (D&B) to uniquely identify business entities.

**Entity:**

Means all of the following:

- A Governmental organization, which is a State, local government, or Indian tribe;
- A foreign public entity;
- A domestic or foreign for-profit organization; and
- A Federal agency, but only as a subrecipient under an award or subaward to a non-Federal entity.

**Subaward:** This term means a legal instrument to provide support for the performance of any portion of the substantive project or program for which you received this award and that the recipient awards to an eligible subrecipient.

- This term does not include the procurement of property and services needed to carry out the project or program (for further explanation, see Sec. --210 of the attachment to OMB Circular A-133, "Audits of States, Local Governments, and Non-Profit Organizations").
- A subaward may be provided through any legal agreement, including an agreement that the grantee or a subrecipient consider to be a contract.

**First Tier Subrecipient:** An entity that receives a subaward from a prime grantee and is accountable to the prime for the use of the Federal funds provided by the subaward.
The Project Description

Part I: The Project Description Overview
The project description provides the majority of information by which an application is evaluated and ranked in competition with other applications for available assistance. The project description should be concise and complete. It should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing the project description, information that is responsive to each of the requested evaluation criteria must be provided. Awarding offices use this and other information in making their funding recommendations. It is important, therefore, that this information be included in the application in a manner that is clear and complete.

General Expectations and Instructions
ACF is particularly interested in specific project descriptions that focus on outcomes and convey strategies for achieving intended performance. Project descriptions are evaluated on the basis of substance and measurable outcomes, not length. Extensive exhibits are not required. Cross-referencing should be used rather than repetition. Supporting information concerning activities that will not be directly funded by the grant or information that does not directly pertain to an integral part of the grant-funded activity should be placed in an appendix.

Part II: General Instructions for Preparing a Full Project Description

Introduction
Applicants that are required to submit a full project description shall prepare the project description statement in accordance with the following instructions while being aware of the specified evaluation criteria. The topics listed in this section provide a broad overview of what the project description should include while the Criteria in Section V.I. identify the measures that will be used to evaluate applications.

Table of Contents
List the contents of the application including corresponding page numbers.

Project Summary/Abstract
Provide a summary of the application's project description. The summary must be clear, accurate, concise, and without reference to other parts of the application. The abstract must include a brief description of the proposed grant project including the needs to be addressed, the proposed services, and the population group(s) to be served. Please place the following at the top of the abstract:
- Project Title
- Applicant Name
- Address
- Contact Phone Numbers (Voice, Fax)
- E-Mail Address
- Web Site Address, if applicable

The project abstract must be single-spaced and limited to one page in length.

Objectives And Need For Assistance
Clearly identify the physical, economic, social, financial, institutional, and/or other problem(s) requiring a solution. The need for assistance including the nature and scope of the problem must be demonstrated, and the principal and subordinate objectives of the project must be clearly and concisely stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies or needs assessments should be included or referred to in the endnotes/footnotes. Incorporate demographic data and
participant/beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

**Approach**

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the number of people to be served and the number of activities accomplished. Data may be organized and presented as project tasks and subtasks with their corresponding timelines during the project period. For example, each project task could be assigned to a row in the first column of a grid. Then, a unit of time could be assigned to each subsequent column, beginning with the first unit (i.e., week, month, quarter) of the project and ending with the last. Shading, arrows, or other markings could be used across the applicable grid boxes or cells, representing units of time, to indicate the approximate duration and/or frequency of each task and its start and end dates within the project period.

When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

Provide a list of organizations, cooperating entities, consultants, or other key individuals who will work on the project, along with a short description of the nature of their effort or contribution.

Applicants should include evidence of plans to collaborate with public or private entities providing early childhood education and development programs, and services for young children in the proposed service area.

Applicants should describe the process for involvement of service providers, public or private entities, and other members of the community in determining the need for services in the geographic locations proposed by the applicant. Partnerships must include a plan to coordinate the proposed Head Start program with other child care and preschool programs, State pre-kindergarten programs, programs under Part C and Section 619 of the Individuals with Disabilities Education Act, with the educational programs that children to be served will enter upon leaving Head Start, and grant agreements under the Early Reading First and Even Start programs under Subparts 2 and 3 of Part B of Title I of the Elementary and Secondary Education Act of 1965.

Applicants must describe the design and approach of the proposed program and how it will meet the needs of the population it plans to serve. Letters Of Support

Provide statements from community, public, and commercial leaders that support the project proposed for funding. All submissions should be included in the application package or by the application deadline.

Budget and Budget Justification

Provide a budget with line-item detail and detailed calculations for each budget object class identified on the Budget Information Form (SF-424A or SF-424C). Detailed calculations must include estimation methods, quantities, unit costs, and other similar quantitative detail sufficient for the calculation to be duplicated. If matching is a requirement, include a breakout by the funding sources identified in Block 18 of the SF-424.

Provide a narrative budget justification for the proposed project that is being fully funded (the budget period and project period are the same). The narrative budget justification should describe how the categorical costs are derived. Discuss the necessity, reasonableness, and allocation of the proposed costs.

General

Use the following guidelines for preparing the budget and budget justification. Both Federal and non-Federal resources (when required) shall be detailed and justified in the budget and budget narrative justification. "Federal resources" refers only to the ACF grant funds for which you are applying. "Non-Federal resources" are all other non-ACF Federal and non-Federal resources. It is suggested that budget amounts and computations be presented in a columnar format: first column, object class categories; second column, Federal budget; next column(s), non-Federal budget(s); and last column, total budget. The budget justification should be in a narrative form.

Personnel

Description: Costs of employee salaries and wages.

Justification: Identify the project director or principal investigator, if known at the time of application. For each staff person, provide: the title; time commitment to the project in months; time commitment to the project as a percentage or full-time equivalent; annual salary; grant salary; wage rates; etc. Do not include the costs of consultants, personnel costs of delegate agencies, or of specific project(s) and/or businesses to be financed by the applicant.

Fringe Benefits

Description: Costs of employee fringe benefits unless treated as part of an approved indirect cost rate.

Justification: Provide a breakdown of the amounts and percentages that comprise fringe benefit costs such as health insurance, Federal Insurance Contributions Act (FICA) taxes, retirement insurance, taxes, etc.
Travel
Description: Costs of project-related travel by employees of the applicant organization. (This item does not include costs of consultant travel).

Justification: For each trip show: the total number of traveler(s); travel destination; duration of trip; per diem; mileage allowances, if privately owned vehicles will be used to travel out of town; and other transportation costs and subsistence allowances. If appropriate for this project, travel costs for key staff to attend ACF-sponsored workshops should be detailed in the budget.

Equipment
Description: "Equipment" means an article of nonexpendable, tangible personal property having a useful life of more than one year and an acquisition cost that equals or exceeds the lesser of: (a) the capitalization level established by the organization for the financial statement purposes, or (b) $5,000. (Note: Acquisition cost means the net invoice unit price of an item of equipment, including the cost of any modifications, attachments, accessories, or auxiliary apparatus necessary to make it usable for the purpose for which it is acquired. Ancillary charges, such as taxes, duty, protective in-transit insurance, freight, and installation, shall be included in or excluded from acquisition cost in accordance with the organization's regular written accounting practices.)

Justification: For each type of equipment requested provide: a description of the equipment; the cost per unit; the number of units; the total cost; and a plan for use on the project; as well as use and/or disposal of the equipment after the project ends. An applicant organization that uses its own definition for equipment should provide a copy of its policy, or section of its policy, that includes the equipment definition.

Supplies
Description: Costs of all tangible personal property other than that included under the Equipment category.

Justification: Specify general categories of supplies and their costs. Show computations and provide other information that supports the amount requested.

Contractual
Description: Costs of all contracts for services and goods except for those that belong under other categories such as equipment, supplies, construction, etc. Include thirdparty evaluation contracts, if applicable, and contracts with secondary recipient organizations, including delegate agencies and specific project(s) and/or businesses to be financed by the applicant.

Justification: Demonstrate that all procurement transactions will be conducted in a manner to provide, to the maximum extent practical, open and free competition. Recipients and subrecipients, other than States that are required to use 45 CFR Part 92 procedures, must justify any anticipated procurement action that is expected to be awarded without competition and exceeds the simplified acquisition threshold fixed at 41 U.S.C. 403(11), currently set at $100,000. Recipients may be required to make pre-award review and procurement documents, such as requests for proposals or invitations for bids, independent cost estimates, etc. available to ACF.

Note: Whenever the applicant intends to delegate part of the project to another agency, the applicant must provide a detailed budget and budget narrative for each delegate agency, by agency title, along with the same supporting information referred to in these instructions.

Construction
Description: Costs of construction by applicant or contractor.

Justification: Provide a detailed budget and narrative in accordance with the instructions for other object class categories. Identify which construction activities/costs will be contractual and those that the applicant will assume.

Other
Description: Enter the total of all other costs. Such costs, where applicable and appropriate, may include but are not limited to: local travel; insurance; food; medical and dental costs (noncontractual); professional services costs; space and equipment rentals; printing and publication; computer use; training costs, such as tuition and stipends; staff development costs; and administrative costs.

Justification: Provide computations, a narrative description and a justification for each cost under this category.

Indirect Charges
Description: Total amount of indirect costs. This category should be used only when the applicant currently has an indirect cost rate approved by the Department of Health and Human Services (HHS) or another cognizant Federal agency.

Justification: An applicant that will charge indirect costs to the grant must enclose a copy of the current rate agreement. If the applicant organization is in the process of initially developing or renegotiating a rate, upon notification that an award will be made, it should immediately develop a tentative indirect cost rate proposal based on its most recently completed fiscal year, in accordance with the cognizant agency's guidelines for establishing indirect cost rates, and submit it to the cognizant agency. Applicants awaiting approval of their indirect cost proposals may also request indirect costs. When an indirect cost rate is requested, those costs included in the indirect cost pool should not be charged as direct costs to the grant. Also, if the applicant is requesting a rate that is less than what is allowed under the program, the authorized representative of the applicant organization must submit a signed acknowledgement that the applicant is accepting a lower rate than allowed.

Program Income
Description: The estimated amount of income, if any, expected to be generated from this project.

Justification: Describe the nature, source and anticipated use of program income in the budget or refer to the pages in the application that contain this information.

Commitment of Non-Federal Resources
Description: Amounts of non-Federal resources that will be used to support the project as identified in Block 18 of the SF-424.

Justification: If an applicant is relying on match from a third party, then a firm commitment of these resources (letter or other documentation) is required with the application. Detailed budget information must be provided for every funding source identified in Block 18 of the SF-424.

Paperwork Reduction Disclaimer
As required by the Paperwork Reduction Act, 44 U.S.C. §§ 3501-3520, the public reporting burden for the Project Description is estimated to average 40 hours per response, including the time for reviewing instructions, gathering and maintaining the data needed, and reviewing the collection information. The corresponding point values indicate the relative importance placed on each review criterion. Points will be allocated based on the extent to which the application proposal addresses each of the criteria listed. Applicants should address these criteria in their application materials, particularly in the project description and budget justification, as they are the basis upon which competing applications will be judged during the objective review. The required elements of the project description and budget justification may be found in Section IV.2 of this announcement.

In considering how applicants will carry out the responsibilities addressed under this announcement, competing applications for financial assistance will be reviewed and evaluated against the following criteria:

The following factors will be used to evaluate this criterion:

- The extent to which the applicant presents an organizational structure and clear lines of responsibility that supports the accomplishment of program objectives and will assure high quality services. Applicant should discuss the following: assignment of key management functions; assignment of content area expertise; the organization's supervisory structure, including support staff.
- The extent to which the applicant demonstrates potential for administering an Early Head Start program effectively, demonstrating fiscal capacity to operate an Early Head Start program and exercising sound fiscal management, based on experience. Applicants that served as delegate agencies to the former grantee and operated programs that met or exceeded the performance standards and measures should provide appropriate information.
- The extent to which the applicant demonstrates the ability to provide timely and efficient implementation of all program components and services, including planning during the transition
period, the availability of classroom space which meets applicable State and local licensing standards, the ability to provide necessary transportation and the ability to recruit eligible infants, toddlers and pregnant women. All applications must include an implementation timetable that expressly states when children will begin receiving Early Head Start services.

- The extent to which the applicant demonstrates how the applicant's history and experience in the local community, based on past performance in providing services comparable to Early Head Start, documents an ability to effectively and efficiently administer a project of this size, complexity and scope of the proposed program within the service area.
- The extent to which the applicant outlines plans and demonstrates capacity in its senior executive managers and governing board to: (1) exercise effective oversight of program operations and accountability for Federal funds; (2) include the Policy Council in the planning and decision-making process; (3) assure representation of the diverse community served; (4) set and monitor overall agency priorities and operational systems; and (5) conduct community assessment, annual self-assessments, ongoing monitoring and outcome-based evaluations.

**BUDGET AND BUDGET JUSTIFICATION**

<table>
<thead>
<tr>
<th>Maximum Points: 20</th>
</tr>
</thead>
</table>

This section will evaluate the extent to which the project's costs are appropriate and reasonable in view of the activities to be carried out and the anticipated outcomes. The following factors will be used to assist in the review and evaluation of applications under this criterion:

- The extent to which funds are budgeted to provide all required comprehensive Early Head Start services to eligible infants, toddlers and pregnant women in a cost-effective manner as indicated in the application narrative.
- The proposed budget of the applicant and plan of the applicant to maintain strong fiscal controls and cost effective fiscal management and to comply with 45 C.F.R. Parts 74 and 92.
- The extent to which the applicant provides evidence that start-up costs are justified. Start-up costs include ensuring that proposed facilities comply with State and local requirements and are adequately equipped, both indoors and outdoors. Where facilities are not available, a plan to acquire them should be presented in accordance with the requirements provided for the purchase, construction, and major renovation of facilities described in 45 C.F.R. Parts 1309.
- The extent to which the applicant demonstrates that it will contribute the required non-federal share of the total project cost.
- The extent to which the applicant shows its ability to meet the 15 percent limitation on development and administrative costs.
- The extent to which the applicant proposes combining Early Head Start resources with other early childhood funding sources, has systems to track, manage, and account for multiple funding streams, and can allocate costs to different funding sources.

**V.2. Review and Selection Process**

No grant award will be made under this announcement on the basis of an incomplete application. No grant award will be made to an applicant or sub-recipient that does not have active CCR registration ([www.ccr.gov](http://www.ccr.gov) or 1-866-606-8220).

**Initial ACF Screening**

Each application will be screened to determine whether it was received by the closing date and time and whether the requested amount exceeds the award ceiling. Applications that are designated as late according to Section IV.3. Submission Dates and Times, or those with requests that exceed the award ceiling, stated in Section II. Award Information, will receive a screen-out letter noting that the application was deemed non-responsive and will not be considered for competitive review or funding under this
announcement. For those applications that have been deemed disqualified under the initial ACF
screening, notice will be given of such determination by postal mail.

**Objective Review and Results**

Applications competing for financial assistance will be reviewed and evaluated by objective review panels
using the criteria described in *Section V.1* of this announcement. Each panel is made up of experts with
knowledge and experience in the area under review. Generally, review panels are composed of three
reviewers and one chairperson.

Results of the competitive objective review are taken into consideration by ACF in the selection of
projects for funding; however, objective review scores and rankings are not binding. They are one
element in the decision-making process.

ACF may elect not to fund applicants with management or financial problems that would indicate an
inability to successfully complete the proposed project. Applications may be funded in whole or in
part. Successful applicants may be funded at an amount lower than that requested. ACF reserves the right
to consider preferences to fund organizations serving emerging, unserved, or under-served populations,
including those populations located in pockets of poverty. ACF will also consider the geographic
distribution of Federal funds in its award decisions.

ACF may refuse funding for projects with what it regards as unreasonably high start-up costs for facilities
or equipment, or for projects with unreasonably high operating costs.

ACF will consider the extent to which approvable applications make provision for the continuation of
services to the eligible children who have been participating as enrollees in the program, in accordance
with 45 C.F.R. Section 1302.11.

The review will be conducted by one or more panels of reviewers who are knowledgeable about the Head
Start and Early Head Start programs and early childhood development. Each panel is composed of three
reviewers and one chair.

In keeping with Section 641(d)(3) of the Improving Head Start for School Readiness Act of 2007, HHS
shall give priority in the selection of a new grantee to any qualified agency that has demonstrated capacity
in providing effective, comprehensive, and well-coordinated early childhood education and development
services and programs to children and their families.

ACF reserves the right to deny funding to any applicant that is presently designated as "high risk",
probationary or not in good standing, or has been debarred or defunded by any Federal agency.. ACF
reserves the right not to fund applicants with unacceptably high Federal Head Start per child costs when
other highly ranked applications are available. Additionally, ACF may decide not to fund projects that
would require unreasonably large initial start-up costs for facilities or equipment or which require
unreasonably large on-going funding levels relative to the number of additional children and families
proposed to be served.

Please refer to *Section IV.2.* of this announcement for information on non-Federal reviewers in the review
process.

**Approved but Unfunded Applications**

Applications recommended for approval that were not funded under the competition because of the lack of
available funds, may be held over by ACF and re-considered in a subsequent review cycle if a future
competition under the program area is planned. These applications will be held over for a period of up to
one year and will be re-competed for funding with all other competing applications in the next available
review cycle. For those applications that have been deemed as approved but unfunded, notice will be given of such determination by postal mail.

**V.3. Anticipated Announcement and Award Dates**

Announcement of awards and the disposition of applications will be provided to applicants at a later date.

**VI. Award Administration Information**

**VI.1. Award Notices**

Successful applicants will be notified through the issuance of a Financial Assistance Award (FAA) document that sets forth the amount of funds granted, the terms and conditions of the grant, the effective date of the grant, the budget period for which initial support will be given, the non-Federal share to be provided (if applicable), and the total project period for which support is contemplated. The FAA will be signed by the Grants Officer and transmitted via postal mail. Following the finalization of funding decisions, organizations whose applications will not be funded will be notified by letter, signed by the Program Office head.

Other correspondence announcing to a Principal Investigator or Project Director that an application was selected is not an authorization to begin performance. Costs incurred before receipt of a FAA are at the recipient's risk and may be reimbursed only to extent considered allowable as approved pre-award costs.

**VI.2. Administrative and National Policy Requirements**

Awards issued under this announcement are subject to the uniform administrative requirements and cost principles of 45 C.F.R. Part 74 (Awards And Subawards To Institutions Of Higher Education, Hospitals, Other Nonprofit Organizations, And Commercial Organizations) or 45 C.F.R. Part 92 (Grants And Cooperative Agreements To State, Local, And Tribal Governments). The Code of Federal Regulations (C.F.R.) is available at [http://www.gpo.gov](http://www.gpo.gov).

An application funded with the release of Federal funds through a grant award, does not constitute, or imply, compliance with Federal regulations. Funded organizations are responsible for ensuring that their activities comply with all applicable Federal regulations.

**Prohibition Against Profit**

Grantees are subject to the limitations set forth in 45 C.F.R. Part 74, Subpart E-Special Provisions for Awards to Commercial Organizations (45 C.F.R. Part 74.81_Prohibition against profit), which states that, "... no HHS funds may be paid as profit to any recipient even if the recipient is a commercial organization. Profit is any amount in excess of allowable direct and indirect costs."

**Equal Treatment for Faith-Based Organizations**

Grantees are also subject to the requirements of 45 C.F.R. Part 87.1(c), Equal Treatment for Faith-Based Organizations, which says, "Organizations that receive direct financial assistance from the Department under any Department program may not engage in inherently religious activities such as religious instruction, worship, or proselytization as part of the programs or services funded with direct financial assistance from the Department." Therefore, organizations must take steps to separate, in time or location, their inherently religious activities from the services funded under this program.
A faith-based organization receiving HHS funds retains its independence from Federal, State, and local
governments, and may continue to carry out its mission, including the definition, practice, and expression
of its religious beliefs. For example, a faith-based organization may use space in its facilities to provide
secular programs or services funded with Federal funds without removing religious art, icons, scriptures,
or other religious symbols. In addition, a faith-based organization that receives Federal funds retains its
authority over its internal governance, and it may retain religious terms in its organization's name, select its
board members on a religious basis, and include religious references in its organization's mission
statements and other governing documents in accordance with all program requirements, statutes, and
other applicable requirements governing the conduct of HHS funded activities.

Regulations pertaining to the Equal Treatment for Faith-Based Organizations, which includes the
prohibition against Federal funding of inherently religious activities, and additional information on
"Understanding the Regulations Related to the Faith-Based and Community Initiative" are available

VI.3. Reporting

Grantees under this announcement will be required to submit performance progress and financial reports periodically throughout the project period. The frequency of required reporting is listed later in this section. Final reports may be submitted in hard copy to the Grants Management Office Contact listed in Section VII. Agency Contacts of this announcement. Instructions on submission of reports electronically will be provided with award documents.

Performance Progress Reports (PPR)

ACF grantees are required to submit the SF-PPR Cover Page. ACF Programs that utilize reporting forms or formats in addition to, or instead of, the SF-PPR have listed the reporting requirements later in this section.

Grant award documents will inform grantees of the appropriate performance progress report form or format to use. Grantees should consult their award documents to determine the appropriate performance progress report format required under their award. Performance progress reports are due 30 days after the end of the reporting period.

Final program performance reports are due 90 days after the close of the project period. The SF-PPR may be found at [http://www.acf.hhs.gov/grants/grants_resources.html](http://www.acf.hhs.gov/grants/grants_resources.html).

Federal Financial Reports (FFR)

As of February 1, 2011, the Department of Health and Human Services (HHS) began the transition from use of the SF-269, Financial Status Report (Short Form or Long Form) to the use of the SF-425 Federal Financial Report for expenditure reporting. SF-269s will no longer be accepted for expenditure reports due after that date. If an SF-269 is submitted, the Administration for Children and Families (ACF) will return it and require the recipient to complete the SF-425.

The transition strategy is allowing individual HHS Operating Divisions to select--from a limited number of options--the approach that best fits their programs and business process. This transition does not affect completion or submission of the cash reporting to the HHS Division of Payment Management's Payment Management System (PMS). The primary features of this transition for recipients are that OPDIVs that previously required electronic submission of the SF-269 will receive the SF-425 expenditure reports electronically and, until further notice, OPDIVs that have been receiving expenditure reports in hard copy will continue to do so.

All expenditure reports will be due on one of the standard due dates by which cash reporting is required to be submitted to PMS OR at the end of a calendar quarter as determined by the Operating Division. As a result, a recipient that receives awards from more than one OPDIV may be subject to more than one approach, but will not be required to change its current means of submission or be subjected to more than eight standard due dates.

Beginning with budget periods which end from January 1 - March 31, 2011, and for all budget periods
thereafter, all affected ACF grantees will be required to submit an SF-425 report as frequently as is required in the terms and conditions of their award using due dates for reports to PMS.

Additional information on frequency of reporting is available on the ACF Funding Opportunities web site at http://www.acf.hhs.gov/grants/msg_sf425.html.

For planning purposes, reporting periods for awards made under this announcement are as follows:
